## COUNTY TAX RATES ANNOUNCED TODAY

Levies For All Units Are Less Than  
Half of Old Ones and in Some  
Cases Only a Third

RATE IN RUSHVILLE IS \$1.52

Each Taxpayer May Now Determine  
Effect of The New Tax Sys-  
tem in His Own Case

The tax levies for Rush county next year, under the new tax law, were completed yesterday by the state board of tax commissioners and were received today by the Daily Republican. All of the rates are less than half of this year's and in some units are only one-third of this year's.

Thus it will be seen that with only a few exceptions taxpayers will pay less taxes next year than they paid this year, despite the claims which have been made that taxes would be much higher next year due to the increased valuations under the new law.

The majority of the people of the county will pay less taxes than under this year's rates, notwithstanding the extraordinary costs of the war period and extensive building improvements, such as road building and the increased cost of schools. The tax commissioners attribute such results to a fuller listing of taxables, to the inclusion of great amounts of intangibles that hitherto evaded assessment successfully, and to a more even and just distribution of the tax burden.

Rushville city's rate is the only one in the county above the \$1.50 legal limit and it is only \$1.52 as compared with \$4.00 this year. Since assessments have been completed, each taxpayer will be able to determine the effect of the new tax system in his own case, as the rates for each unit in the county, compared with the old levies, are given herewith, including the state tax rate of eighteen cents:

	New Levy	Old Levy
Carthage Corp.	\$1.34	\$3.62
Ripley	.95	2.27
Posey	.90	2.30
Walker	.97	2.86

## TO MAKE PHYSICAL RECORD OF CHILDREN

Dr. Lowell M. Green to Supply Data  
On Which Board of Guardians  
Will Base Its Efforts.

SACRIFICE CLUB PAYS BILL

A physical record of all the school children in the first eight grades of the city, to supply information for the county children's board of guardians, will be made in the near future by Dr. Lowell M. Green, it was announced by a member of the board today. The children will be given a thorough examination of the eyes, ears, nose, throat, lungs, and other parts of the body to locate defects which may be corrected before it is too late.

The card system will be used and a duplicate made of every examination. One card will be sent to the parents of the child and the other one to the children's board of guardians. Where the parents are unable to pay for correction of the physical disabilities of their child or children, the board will endeavor to have it done.

The Tri Kappa sorority is conducting a Sacrifice Club to finance the board in this work. Members of the sorority obtain members of the club who pledge themselves to give five cents a week for this charity.

## TAKEN TO OXFORD HOSPITAL

Sam Herkless of Near Carthage is  
Declared Insane

Sheriff Jones has returned home from Oxford, O., where he went with Sam Herkless, who will take treatment at the hospital for the insane. Monday afternoon Sheriff Jones was called to the Herkless home, four miles south of Carthage, on account of the condition of Mr. Herkless. Mrs. Louisa Herkless, his mother, filed insanity paper against him, and he was taken yesterday to the private institution at Oxford for treatment. Sheriff Jones took Mart Clevenger with him as a deputy and Herkless was disarmed before he had an opportunity to cause any trouble.

## MINERS ORDERED TO STRIKE NOV. 1

Four Hundred Thousand Are Affected  
Directly and Others Will  
Respond, it is Said

FAIL TO REACH AN AGREEMENT

John Lewis, President of U. M. W.  
of A. Issues Order Today Be-  
fore Leaving For Washington

(By United Press.)

Washington, Oct. 15.—The strike of bituminous coal miners November first will catch the railroads with only a ten-day supply of coal, according to the data laid before the senate coal investigating committee.

Indications are that a shortage this winter will be inevitable.

Indianapolis, Ind., Oct. 15.—Four hundred thousand coal miners were ordered to strike November first in a call issued today by John Lewis, president of the United Mine Workers of America.

It was issued following failure of union leaders and the coal operators to get together and settle the demands made by the miners.

Although the order affects only 400,000 men directly, it was announced that more than a half million will respond.

It was stated that the union laborers were not the only ones to join the strike but those miners not belonging to a union are also prepared to walk out on November 1.

The strike is the direct result of the conference between miners and operators represented at Philadelphia which adjourned Saturday without reaching an agreement.

The order was signed by John Lewis and William Greek, secretary-treasurer of the miners organization.

"It instructs the members of our organization, employees in and around the mines of coal producing districts, within jurisdiction of our organization to cease production of coal on Friday, October 31."

The strike thus will continue in full force and effect until officially terminated by order of the international union, the order said.

John Lewis left late today for Washington to confer with Secretary of Labor Wilson and Thomas Brewster, representing the coal operators association, and to attend the industrial conference.

Indianapolis, Ind., Oct. 15.—  
Talk of a strike in the Indiana-

the hog market today. The  
packers withdrew their buyers  
from the market, thus causing  
the heavy receipts on the mar-  
ket to go to pieces, a level of  
\$14 being reached.

## SECOND NUMBER OF COURSE FRIDAY

Halwood Robert Manlove, "The Man  
of Many Faces" Will Appear  
at First Baptist Church

DELINEATOR OF CHARACTER

Career as Varied as Program is  
Versatile—Audience Laughs  
and Cries With Him

The second number on the lyceum course will be given Friday night, at eight o'clock in the First Baptist church, when Halwood Robert Manlove, an entertainer of rare ability, will appear. The first number was given a few weeks ago, when the Fredericks Concert company appeared here. The course this year is given under the auspices of the Rushville Ministerial Association, the same as last year.

Manlove, who is known as "the man of many faces," comes as a guaranteed attraction. He is considered more than an impersonator. In his character delineation, Manlove is an Irishman, Swede, Jew, Dutchman, Frenchman, Italian, old man, rube, maniac, grouch, silly kid, tramp, dude and what-not. He laughs and cries and as he laughs, the audience will laugh, and as he cries, he turns the audience with him.

His career has been as varied as his program is versatile. He has been known in a half dozen companies or more; today he is a whole show in himself. "I'm just plain Manlove," he says.

But he is not plain. He is extraordinary, and has been placed on the list by himself, as there are no other such persons on the lyceum comedian list. He has demonstrated time and time again that the cleverest comedy work can be done without a suggestion that would offend.

## RED CROSS OF COUNTY WILL MEET OCT. 29

General Meeting for the Election of  
Officers and Future Welfare  
Will be Discussed

ALSO STATE MEETING OCT. 21

On the afternoon of Wednesday, October 29, a general meeting of the Rush County Red Cross will be held in the assembly room in the court house, for the purpose of electing officers, and the consideration of the policy and activities of the organization for the following year.

On October 21 there will be a meeting in Indianapolis of delegates from the chapters in all the counties in the state, at which plans for the roll call drive, November 2 to 11, will be discussed. The meetings will be addressed by some of the most prominent members and officers of the Red Cross organization in the country, including Dr. Livingston Ferrand, peace time leader of the Red Cross. A delegation from the Rush County chapter will attend the conference. The program for the Indianapolis meeting is as follows:

10 a. m. Conference of chapter delegates with division department officers. Hotel Severin.  
3 p. m. Dr. Farrand's address to Chapter Delegates, Hotel Severin.  
8 p. m. Public mass meeting, Caleb Mills Hall.

ONE GIRL RECOVERS

Chicago, Oct. 15.—Edna Luikart, poisoned by her mother, has recovered to the extent that she could get out of bed today. Dr. Carter, her physician, stated. Shirley will not be able to leave her bed before a week.

## SALARY INCREASE TO CAUSE DISPUTE

Chief of Stage Board of Accounts,  
Says Assessors Don't Get More  
Until January 1

MANY DISAGREE WITH HIM

All Rush County Assessors Paid  
Rate Provided in New Law  
After it Became Effective

Just what effect a ruling made by Jesse Eschbach, head of the state board of accounts, that the salary increases granted township assessors will not be effective until January 1, 1920, will have in Rush county is problematical. The salary increases to the township assessors were granted in the new state tax law. As soon as this law became effective the assessors were given the increase in pay and now the state board says this should not be done until January 1, 1920.

Thus the assessors find themselves working under the new tax law and drawing pay under the old law. Local attorneys do not believe Mr. Eschbach's ruling is sound and declare it will not stand a test in the court. Attorneys point out that the law cannot be made to apply in parts and that the discrimination if the interpretation of Mr. Eschbach is followed would never stand in any court.

The township assessors were formerly paid at the rate of \$2.50 a day. This was increased to \$4 a day by the new tax law. The assessors here were paid at the rate of \$2.50 a day until the new tax law became effective and then they drew the sum of \$4 a day. The tax law had not been passed when the assessing season started and since there was an emergency clause in the law, local officials believed the

## CORTUEUR PUT UNDER A \$500 PEACE BOND

Indianapolis Man Returns to His  
Home Today After Arranging  
to Provide Surety

HEATON GRANTED NEW TRIAL

Nothing was going on in circuit court today, but tomorrow the case of Herkless against Henry is set for trial, after being carried over for a number of terms of court. The case is a controversy over land in the neighborhood of the I. & C. power house.

Martin Cortueur, who was found guilty by the jury the other day, was arraigned this morning before Judge Sparks and placed under surety of peace bond of \$500. The bond was placed in the squire's court at \$1,000. Ignatz Kratochvits of Indianapolis went on the bond. Cortueur left immediately for Indianapolis. The surety of the peace bond holds good for one year, during which Cortueur is to "live at peace with the citizens of Indiana, and especially, Mrs. Matilda Gray," his former wife, whom he threatened to harm.

Judge Sparks has granted the petition of Sanford Heaton, who asked the court for a new trial, and October 27 has been set for another hearing. A few weeks ago Heaton was fined a dollar and costs for assault and battery, and his attorneys filed a petition asking for a new trial, stating that the court had erred on twelve different occasions, and that Heaton was not given a fair trial. It is a state case, with Arie Colestock as prosecuting witness for the state.

## CAPT. PERRY ONEAL LANDS

Arrives at Camp Dix and Expects to  
be Discharged Soon.

Mr. and Mrs. Lien Oneal received a telegram this morning from their son, Capt. Perry Oneal, who has landed at Camp Dix, and they expect that he will be discharged and will come home in a few days. Capt. Oneal received a commission in the first officer's training camp at Fort Benjamin Harrison and went overseas with the 84th division, which was formed at Camp Taylor, Ky. He was held with the Army of Occupation and has been in France commanding a number of German prisoners who were working in a stone quarry. Capt. Oneal was a partner of John A. Tittsworth and was engaged in the practice of law when he entered the service.

## MAILED FIST HITS GARY REDS TODAY

Forty Homes Suspected of Being  
Centers of Revolutionary Ac-  
tivity Are Raided

EIGHTEEN MEN ARE ARRESTED

Practically All Members of Secret  
Council of 22 Held—Printed  
Propaganda Found

(By United Press.)

Washington, Oct. 15.—An attempt to secure more definite action against the reds and radical agitators in this country was expected in the senate late today.

Adoption of the Poindexter resolution calling on Attorney General Palmer to explain his failure to arrest and deport agitators will be sought, with the possibility of its passage.

Poindexter charges that threats on the government are being widely agitated and that little effort is being made to capture those responsible.

Gary, Ind., Oct. 15.—The mailed fist fell today on the Gary reds and bomb plotters. Forty homes suspected to be centers of the revolutionary activities were raided between midnight and dawn this morning by United States soldiers.

Eighteen men were taken into custody and held with forty others taken previously.

An army truck was called into service to carry away printed propaganda found in the city.

Reports that today was the day set for the closing in on all suspects have been current for a week, it was declared.

A secret list containing 700 names of red agitators fell into the hands of the intelligence officers shortly after the soldiers took over control.

The intelligence officers have determined to take no chances with the suspects and are investigating their activities.

In the list was named a secret council of 22 which directed the work of the large organization.

Practically all of the members of the council are now under arrest.

Colonel Mapes today adhered to his policy of requesting newspaper men to refrain from mentioning places raided or names of those taken.

CITY RECORDS CORRECT

City Treasurer George Helm this morning received a notice from Jesse Eschbach, chief of the state board of accounts, stating that the field examiners who were here a few weeks ago, found the city accounts correct. The copy is on file with Mr. Helm and a detailed report can be seen by anyone interested.

## SOLDIERS HERE TO RECRUIT MEN

Sergts. Chaney and Allen and Corp.  
Fisher Arrive Today in Mam-  
mouth Army Truck

CARRY RELICS OF THE WAR

Will Remain Until Tomorrow Night  
to Obtain Enlistments For  
One to Three-Year Terms

A United States Army recruiting truck arrived in Rushville this morning, for a two days stay, the main purpose of which is to secure enlistments for the army on a one to three-year term. This truck is the only one of its kind in the United States service and carries a complete assortment of machine guns and rifles, helmets, gas masks, breast protectors and many small articles of importance.

In charge of the army truck is Sergeant Chaney, Sergeant Allen and Corporal Fisher. All men between the ages of 18 and 40 who care to enlist for foreign service should confer with the men in charge of the truck.

A twenty-day tour of Indiana is being made by the truck to get enlistments in all branches of the service. Sergt. Chaney remarked today that any man who is not making at least \$91.50 a month should consult with him as there are many positions open which will pay that much and more.

The truck will exhibit on the streets down town and will remain open until 8:30 each evening during its stay here, which will be today and tomorrow. Another advantage pointed out by the officers is that anyone who does not have a trade, may pick one from the list offered, and the government will teach it, the recruit receiving pay at the same time.

The exhibition of the guns and war relics is worth one's time in paying the army truck a visit. No admission is charged for the exhibit, and the public is cordially invited, whether interested in enlistment or not.

## ALL COUNTY OFFICIALS ARE GIVEN CLEAN BILL

Field Examiners For State Board of  
Accounts Find Records of Of-  
fices For 1918 Correct

RECORD OF TREASURER

All county officials have received a clean bill from the state board of accounts for the year 1918, with the exception of the clerk of the court, whose records were examined for 1918 and up until August 1, 1919, when George B. Moore, Jr., resigned and Loren Martin became clerk. John B. Seitz and E. H. Pritchard, field examiners, made the examinations.

Touching on the report on the treasurer's office, Charles A. Frazee, county treasurer, today called attention to the fact that the examiners for the state board of accounts have found a mistake of only six cents during the four years that John O. Williams, his predecessor, was in office. Mr. Williams retired December 31 last.

Mr. Frazee figured up this morning that the receipts in the treasurer's office during those four years amounted to \$3,280,426.43, which represents approximately 680,000 transactions in the collection of taxes alone. There are about 8,500 taxpayers in the county and they pay taxes twice a year.

## TUBERCULOSIS LESS AMONG DAIRY CATTLE

Report Shows Big Decrease and  
From 19 Herds Only 2.2 Percent  
Is Shown as Diseased.

### LIVE STOCK BOARD IS BUSY.

Indianapolis, Ind., Oct. 15.—Notwithstanding official figures compiled from nineteen Indiana herds show that there is only 2.2 percent of tuberculosis among dairy cattle, the effort of the Indiana Live Stock Sanitary Board to increase the number of accredited herds, that are tuberculosis free, will be continued with unabated zeal, according to Dr. L. E. Northrup, state veterinarian today.

Including beef herds, the same authority shows 3.6 percent of reactors in 188 herds tested for tuberculosis. This is regarded as a comparatively low figure, and indicates a better condition than live stock officials had been lead to expect from original surveys.

Officials of the Indiana Dairy Association, as well as the Live Stock and Breeders, who have knowledge of the efficiency of the tuberculin test

in relieving cattle from liability to infection, are cooperating with the Sanitary Board and the State Veterinarian in advocating the application of the serum. Figures are available, according to Dr. Northrup, to prove that tuberculin tested herds are an added asset due to the public confidence they inspire, and for which the public is willing to pay, as well as the increased security against inferior stock, which can be translated into cash saved in insurance and realized at the market.

## URGES SEED CORN SELECTION NOW

Food Conservation Committee Says  
That a Large Corn Crop Is Ex-  
pected Next Year

### BIG AREA AVAILABLE IN 1920.

With Corn Ripening Earlier Be-  
cause of Hot Weather, Selection  
Can Now be Made

Indianapolis, Ind., Oct. 15.—A large corn crop is needed and anticipated for 1920 according to statements made by members of the Indiana Committee on Food Production and Conservation today. In order to meet the demand for good seed the Committee believes that every effort should be made to obtain a large amount of good seed corn immediately. Good, strong seed corn will undoubtedly be scarce and high in price next spring and it should be the object of every corn grower to gather twice the amount of corn he needs for seed from the field now.

The extra dry weather has hastened the maturity of the corn crop, making it possible to get large quantities of good dry seed in nearly every section of Indiana. The same weather condition is causing some reduction in the wheat to be sown this fall, making a larger area available for corn in 1920. With a world's deficit of more than 400,000,000 bushels of corn, a larger acreage will be welcomed and the importance of planting this with the best seed obtainable is paramount.

The value of good seed is emphasized in a recent Purdue publication in which the writer says that one good ear of corn selected for seed in the field should mean five bushels the next year.

"During the past season there have been extreme droughts in certain sections of the state which to a certain degree dwarfed to corn type. In some cases the farmer may conclude that this corn at Purdue has proven that where a good type of corn was dwarfed by a dry season, seed selected from it produced the original type corn the following year if the conditions were again favorable. Now, which is the best proposition: to select your seed from the dwarfed corn and know you have a good germinable seed well adapted to the soil and climatic conditions, or go into some other locality and bring in corn which is questionable as to adaptation."

**Florists Telegraphed Everywhere**

We're as Near as the Nearest Phone."

Beautiful fresh flowers may be ordered here for delivery on a few hours' notice even in the most distant towns and cities. Our service extends all over the United States, Canada, Ireland and England.

If you have a sick friend to whom you wish to send flowers, or one who has just passed away and you wish a spray of flowers sent in token of your remembrance and esteem of them, it matters not how far the city may be, we can deliver them for you on time. The order will be wired, code form, to the leading florist, he in turn will fill same, using always the best flowers to be had, and will deliver promptly even though he has to drive with them to a neighboring town.

To begin with only the best florists are chosen as members of the F. T. D. (Florists Telegraph Delivery), and must pay a substantial entrance fee. This is used as collateral or guarantee that the flowers you order will be what you order and more than anything else, that you shall have value received.

This makes it safe for you to order what you wish, and there are times when this system comes in very good. Whenever you have occasion to use this system, call us up and we can more fully explain.

All But One Minister Away Today Attending Conventions

Rushville was very near a preacherless town today. Every minister but one was out of the city, and it so happened that no one wanted to get married, or else Squire Steel would have been busy—anyway he hung around pretty close today. The Rev. C. J. Bunnell of the First Baptist church was in Ft. Wayne attending the Baptist convention; the Rev. J. T. Aikin of the First United Presbyterian and the Rev. C. S. Black of the Methodist church were in Morning Sun, O., attending the synodical meeting of the Presbyterian church; the Rev. L. E. Brown of the Main Street Christian church was in Cincinnati attending the convention of the Church of Christ and Capt. J. A. Tench of the Salvation Army is on a business trip to New York City. The Rev. Francis Schaub of St. Mary's Catholic church was the only one here.

Industrial Conference Adjourns, Postponing Vote Until Tomorrow

(By United Press.)

Washington, Oct. 15.—After postponing for the day the vote on the labor proposal for mediation of the steel strike, the national industrial conference adjourned until 2:30 tomorrow.

Defeat of the labor proposal seemed certain today, it was said. Members of the public group led by B. Baruch, fearing an adverse vote on the steel strike resolution which might cause a break in the conference, set to work on new arbitration plans and so delayed the vote on the steel strike resolution which was scheduled for this morning.

High School Basketball Team Gets in Good Licks Preparing For Morristown Five

LINE-UP READY TOMORROW

The Rushville basketball team have been practicing very diligently this week, in preparation for the game Friday night, when they will meet the Morristown team here. Coach Sutton has been putting the team through a good practice, and from now on an effort will be made to get the team into good shape for the future games which will be on the schedule.

Last Friday night, the opening game between Rushville and Arlington resulted in a walkaway for the locals, who had not practiced together as a team, and improvement is expected with only the one week of systematic practice. The line-up will be announced tomorrow night.

Physician's Statement Says He Had Good Nights Rest and Showed Improvement

**IN TOUCH WITH CONFERENCE**

(By United Press.)

Washington, Oct. 15.—President Wilson was better today, said the bulletin issued by his physician at noon.

The statement said: "The president had a good night's rest and enjoyed his breakfast and with the exception of a slight headache, continued to show improvement."

Through the aid of Dr. H. A. Fowler, a Washington specialist, the swelling of the prostate gland, was reduced late yesterday.

The president is in touch with the industrial conference and will resist any move which might threaten to break up the meeting.

The conference has accomplished some of the purposes for which it was convened, the president stated.

salary there was an emergency clause in the law, local officials believed the salary section became operative at the same time the other sections went into effect. The assessors drew their pay at the rate of \$4 a day after about three weeks of the tax assessing period. It will be a difficult problem to get this money back into the county treasury, it is stated, and a dozen or so law suits might result in Rush county to say nothing of those in all other counties of the state.

The same situation existed in other counties as did in Rush county. The assessors worked under the new law and drew their pay on the increased scale. They took the money in good faith, it is pointed out, and efforts to collect the money would probably prove very difficult.

The announcement by Mr. Eschbach did not state the course that would be followed. It was declared here today that the opinion of the state board did not necessarily make the law and before the question is finally decided a ruling of a court may be necessary.

Are you one of those who believe that no phonograph can match the voice of the living human? An astonishing discovery awaits you—like the 1200 people of our county who attended the Amy Ellerman—Fleming Sisters recital.

Thomas A. Edison gave his famous Tone-Test the night of October 3rd, at the Main Street Christian church. He had Miss Ellerman sing in direct comparison with the RE-CREATION of her voice by the New Edison.\* Then he had the Fleming Sisters Instrumental Trio play in similar direct comparison with the Re-Creation of their art by the New Edison.

Music lovers were completely baffled. Their ears were unable to distinguish the RE-CREATED art from the living. You have never heard any phonograph that approaches the New Edison. It RE-CREATES not only the musical notes, but every elusive quality of tone and color which identify the original artist.

London, (By Mail)—Labor propaganda pills with Charlie Chaplin jam to tickle the palate, is the scheme of the Liverpool electrical trade union and the local trade council, which propose calling the movies to their aid in electioneering.

The two bodies are considering the construction of a trade union movie palace at a cost of \$125,000 in which economic text-books and the powers of debate will be reinforced by films depicting technical trades, and the development of the labor movement.

The promoters recognize that propaganda alone will not fill the building, but with the assistance of Charlie Chaplin films, and other popular "movie stars," it is considered a sound business proposition.

### The Coal Miners Demand

The demands of the bituminous coal miners amount to nothing less than an arbitrary levy of a tax of a billion dollars on the soft coal users of the country. The tax, if it should become effective, would have to be paid by every farmer, every manufacturer, every clerk, every day laborer and every person regardless of station in life, if they used soft coal. The controversy between the operators and the union, which threatens to participate a strike November 1, has not attracted much attention outside of the mining districts, but nevertheless it is one that is fraught with momentous possibilities that might affect more than those who actually use the coal for it is stated that the railroads could not be operated more than ten days if the soft coal mines were to close.

The mine workers are asking for a six-hour day, five days in the week and a 60 per cent increase in compensation. This would mean a reduction in mine output at a time when the supply of bituminous coal is already far short as compared with the normal output. The 60 per cent increase, if granted, must necessarily be added to the price of coal at the mine; and since it will necessitate a larger investment on the part of the dealer, it will mean a still greater addition to the price before the coal reaches the consumer. The 60 per cent increase in wages will mean from \$1.50 to \$2.00 per ton added to the price of coal, or in the neighborhood of a billion dollars for the entire output for a year. On an average, this would mean \$10 per capita for the population of the country, or an average of \$50 per family.

Not only would this increase in the price of coal be paid by those who use soft coal in their stoves and furnaces, but every manufacturer who buys coal would add that increased cost to the price of his commodity, with the result that consumers of other commodities than coal would pay the increased price indirectly whenever they purchase manufactured goods.

Bearing upon the reasonableness of this demand for an increase and the threat of strike as a means of

### Sap and Salt

By BERT MOSES

Nothing is easier to find than a temptation.

Most of us fall down trying to stretch a single into a two-bagger.

To be the "whole cheese," you must first get the public to admit it.

Don't forget this: If there were no rogues, there would be no rogue lawyers.

The reason so many stupid laws are passed is that we elect stupid men to make laws.

Hez Heck says: "A bunch of men tell bad stories, while a bunch of women are just silly."

its enforcement, men entirely familiar with conditions in the mining districts say that average earnings of mine workers now are approximately \$8 per day. An instance is related of one Greek mine laborer who makes a practice of quitting work each month when his monthly earnings have amounted to \$500. He works about twenty-four days a month before accumulating this income. Earnings of \$500 per month by a man with no capital investment must look huge to a farmer in Rush County who buys coal to heat his house in the winter time but who is unable during his twelve to fifteen hours work per day on the farm for six or seven days in the week, to earn anywhere near the same amount, even with the aid of his wife and children, and with a large investment.

### Let Prosperity Begin at Home

Community prosperity is, or is not, as we of the community make it.

Much money will be spent around here during the coming Christmas holidays. It is right that it should be so, for every normal person likes to partake of the joys of the yule time.

But where will that money go?

Will the profits remain here, and continue to circulate in our midst, and enrich our local community? Or will they go to foreign houses, and be forever lost to us who have produced them by our energy and our thrift?

The answer is in our own hands.

Our local merchants will be well equipped for supplying our demands.

The goods will be on their counters, where we can see them, judge as to their quality, and know what we get. And the name of a local dealer stands as a guarantee for everything he sells.

But if we buy abroad we lose from our midst both the dealer's cost price and his profits. We never see them again.

And our community is the poorer to the extent of the profits on every article not purchased at home.

Which shall it be?

A constructive Christmas, or a destructive one?

Prosperity should begin at home.

The highest bid made for the town of Nitro, West Virginia, site of a war-time munitions plant established by the War Department, was \$5,800,000. The town cost the country \$70,000,000. This is probably not the only instance in which the government paid 12 times the value of a war necessity, and it all came out of the taxpayers.

The young man who is content to remain stationary will never be a success in life. If he fails to press forward he will soon find himself slipping to the rear, and the devil takes care of the hindmost.

### 5-YEAR-OLD GIRL DIES

Harriet Brooks, five-year-old daughter of Mr. and Mrs. Will Brooks, died yesterday afternoon of appendicitis at the home of her parents east of the city. Besides her parents she is survived by two brothers, William and Howard. The funeral services will be conducted tomorrow afternoon at two o'clock at the residence and burial will take place in the East Hill cemetery.

In honor of a Texan visitor a bear hunt was organized in the cane brakes and in twenty minutes the dogs had surrounded the bear. The party rode up on horseback, Eph, an old negro, arrived on a mule. A terrific bow-wow and pow-wow was going on, but no bear in sight. The planter yelled:

"Eph, get off that animal and chase out that bear."

To the Texan's astonishment Eph dismounted, seized a pine knot and rushed into the cane. In a few minutes the bear broke cover and was promptly killed. The Texan sidled over to Eph and said:

"Eph, how did you ever get the nerve to go after that bear single handed?"

## Had to Muffle the Telephone

Mrs. Swanson's Nerves Were Upset  
From Years of Trouble—Gains  
20 Pounds.

"For the benefit of the thousands who are suffering from stomach trouble and a run down condition I want to tell of the wonderful results I have gotten from the use of Tanlae," said Mrs. Lena Swanson of 1720 North Madison street, Peoria, Illinois, in relating her remarkable experience with the medicine, a few days ago.

"My friends are simply amazed," she continued. "They all say I am now the picture of health. Why, just today, one of my friends told me I was looking ten years younger and I certainly do feel that way, too. I have already gained twenty pounds in weight and have just finished my fifth bottle of Tanlae."

"It was eight years ago, or more, that my stomach got out of order and my health began to fail. I finally got to feeling so badly that I lost interest in everything, gave up my church work, and found little pleasure in life. My food acted like poison to my system. I would bloat up with gas until I did not look natural and just suffer agony. My heart would flutter from the effects of this gas, and weaken me until I would almost faint. I would get so dizzy at times that the house seemed to be whirling round. No one knows unless they have suffered the same way, how miserable I did feel. I at last got to where I had to almost stop eating and became so run down and weak it was all I could do to get about the house. My nerves were so shattered that the least noise would upset me. I finally had to muffle the telephone as I would almost jump out of my chair when it rang. I slept but little at night and seldom woke up in the mornings without a dull, nagging headache."

"My friends would call and sympathize with me, but now they rejoice with me and go away praising Tanlae. One day my brother, who had used Tanlae with fine results, brought me a bottle and talked me into trying it. Well, when I finished that bottle my appetite had returned and I could eat better and sleep better than in years. I didn't feel quite so nervous, either, and then I knew I had at last found the medicine I needed. I had been suffering so long and was in such a badly run-down condition that it took several bottles of Tanlae to straighten me out, but anyone can look at me now and see that I am enjoying good health. I can now eat meats, pickle, cabbage, in fact, just anything and never have the least trouble with my stomach. My nerves are as calm and I sleep as soundly as when I was a child. I am just so grateful and happy for the return of my health that I want to tell everybody about Tanlae. I never grow tired praising it to my friends."

Tanlae is sold in Rushville by F. B. Johnson & Co.; in Milroy by Dallas Copper; in Manilla by Geo. J. Inlow, and Arlington by Mrs. L. T. Davis.—(Adv.)

## EARLY ACTIVITY IN "STOVE LEAGUE"

Picking New Managers for 1920  
Started Before Curtain Fell on  
Year's Championship Race

MORAN TO REPEAT WITH REDS.

Outside All Uncertainties Everything Seems to be Lovely in Major League Circuits.

(By United Press.)

New York, Oct. 15.—It's kind of early for winter sports but there are already signs of early activity in the "stove league" which keeps the national pastime alive during the snow period.

The favorite occupation of picking new managers for the 1920 season started before the curtain had fallen on this year's championship race. As is usual there are wholesale rumors of changes in the league and the personnel of the various clubs.

President Heydler, of the National league put his foot on the throat of the yarn that the St. Louis Cards franchise was to be turned over to Minneapolis interests and the Boston Braves club was to be run farther up north to Montreal. Rumors of a change in the ownership of the Chicago Cubs have also fallen by the way. Frank Chance recently announced in Los Angeles that he and Barney Oldfield had been in the notion of buying the Cub team but had changed their minds.

A new hand at the helm of the Pittsburgh Pirates next season seems almost assured. Hugo Bezdek will go back to Penn State to take charge of athletics according to reports and he will be succeeded as boss of the Pirates by George Gibson, the old popular backstop of the club. Bezdek's work didn't please the Smoky City fans. His connection with various collegiate sports gave him the theory that physique was the only requisite for a ball player and that he could take a husky, well built chap and make a ball player out of him like they do around the college campus with football and track material.

But it was proved long ago that baseball players aren't easily made. McGraw tried it with Jim Thorpe and didn't meet with much success. Gibson has been successful as a manager of the Toronto International and he has quite a following who believe he can make the go as a big league pilot. His experience with Fred Clarke and McGraw should have given him some good ideas of winning play and the old catcher has personality with it. Lee Fohl, deposed Indian chief of Cleveland is also being mentioned.

Another change agreed upon as sure by the dopesters would transfer the reins of the New York Yankees from the hands of Miller Huggins to Wilbert Robinson, the Dodger boss. Robby is said to be content with his present job as far as relations with the club owners and the team go but he has his eyes on larger pay slips and the Ebbets syndicate can't pay him as much as the wealthy colonels could afford for a man who would make a champion team out of the Yankees.

Huggins hasn't been a howling success as pilot of the Yankees. The showing the American leaguers made this year was a distinct disappointment to the Gotham fans who early in the season had visions of a world's series played straight through on the Polo grounds. Huggins didn't get himself in wrong with the club owners by his failure to land the pennant, but the little leader is said to be longing for his old love—the National League.

Some of the fans are predicting that the Dodgers and the Yankees

might switch managers before the teams hike off to the training grounds next spring.

There seems to be little foundation to the rumor that Jawn J. McGraw is going to retire from the management of the Giants and Pat Moran will certainly try to repeat with the Reds unless Garry Hermann and company pull a "Baker" and give the Irishman his walking papers. Stallings is slated for a removal from the bridge of the Brave bark and Ed Barrow seems to be in 'duteh' also with the Hub fans.

Tris Speaker covered himself with glory during his late season drive with the Indians and he will no doubt get a long term parchment from owner Jim Dunn. If Connie Mack develops anything out of several score of infants that he has on the club roll he may return to the good graces of the Quaker City fans.

Outside of all these little uncertainties everything seems to be lovely in the playing families of the major league circuits.

## Amusements

"The Spite Bride" Tonight

Would you like to be the bride of a man who had married you just to spite another woman? Billy Swayne, a scion of one of New York's oldest families, didn't love Tessa Doyle the little dancing girl he married in fact, he hardly knew her.

When Millicent Lee had jilted him to marry another man, Billy thought the world had ended. He did not know what to do and so, as is usual, in such instances, he took the first bit of advice given him. Rodney Dolson told him him to get married immediately—before Millicent did, so that it would look as if he had thrown Millicent over for this other girl. It didn't make much difference who the girl was. He could marry her, give her a thousand and send her to Reno.

So when they saw Tessa Doyle at the theatre that night, they immediately decided that she was just the girl. Now, Tessa wasn't the usual type of dancing girl. She was young, fresh and as yet unsmirched by the grease paint and footlights. She was innocent and good. She didn't want to marry Billy on the conditions that he named. She had a different idea of what marriage ought to be—something sacred. But her will was not strong enough to battle against those of Billy, Rodney and her dancing partner, Trixie. So she was married.

This is the thrilling story of "The Spite Bride," in which Selznick Pictures presents beautiful Olive Thomas and which comes tonight to the Princess theatre. A brilliant supporting cast is headed by Robert Ellis and Jack Mulhall.

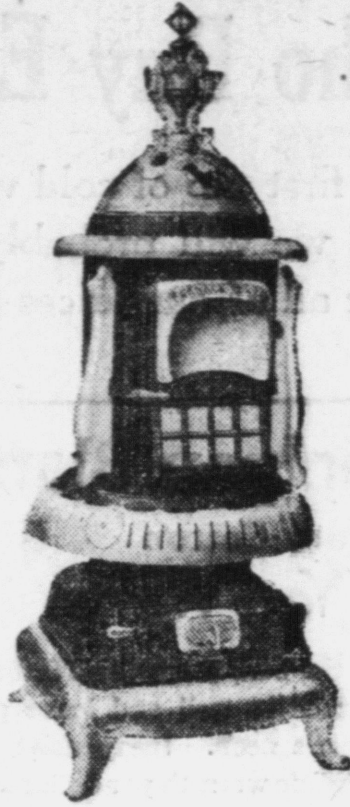

Alice Joyce at Mystic

Big, dramatic scenes abound in "The Cambric Mask," the Alice Joyce Picture which will be seen in the Mystic theater on today. Vitagraph again screens one of Robert W. Chambers' novels, and this swift moving romance gives Miss Joyce one of her most heroic roles. The picture was filmed under the direction of Tom Terriss, and in the supporting cast are Herbert Pattee, Maurice Costello, Roy Applegate, Bernard Siegel, Jules Cowles, Martin Faust and Florence Deshon.

Miss Joyce has a hard riding, fighting role that recalls her fine work in early Vitagraph Westerns. She joins a band of White Riders, led by her father and bent on killing the man she loves. By a thrilling night ride she overtakes the band and manages to free and arm the man, who thus escapes. He has believed all along that she has gone over to his enemies, and not until he overtakes and unmasks the fleeing girl does he realize what risk she had taken—because all along she had loved him.

The twelfth episode of "Elmo the Mighty," entitled "The Last of the Rocks," will be shown tomorrow. Neal Hart in a two-reel western picture and an O. K. comedy, "Billie Gets in Trouble," in which Ben Wilson and Neva Gerber are starred, will also be on the program.

John Kirk who has been ill with pleurisy, is improving.

# Hot Blast Furnace Stove

Here it is at last—a warm air heating plant which everyone can afford—ordinary small warm air furnace, yet costs little more than any ordinary a heating plant which works as thoroughly and satisfactorily as the heating stove to buy—no more to install and much less to operate.

It's not necessary—not even advisable to use expensive fuel in the Hot Blast Furnace Stove. It will burn any kind of coal satisfactorily—hard coal, soft coal, large chunks of wood and even slack.

If you want to save fuel and be comfortable install the

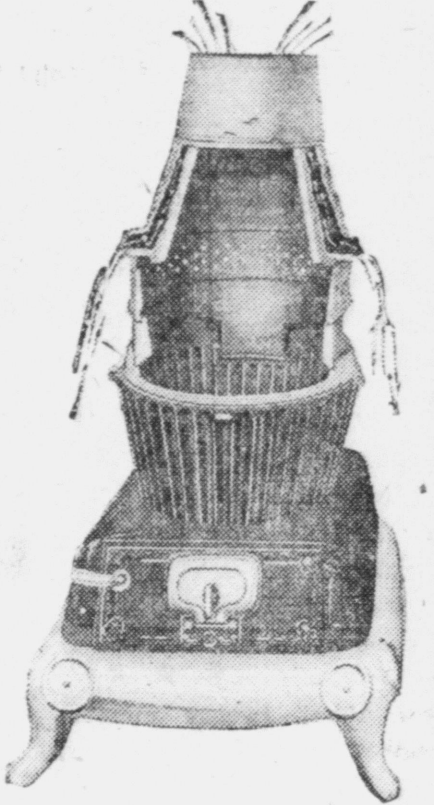

## Furnace Hot Blast

This represents an X-Ray view of the stove looking at it in front. Large, roomy base, ribbed or fluted fire pot radiates heat very rapidly and causes circulation. This form of construction gives double the radiating surface of the ordinary fire pot and with proper use we guarantee it will not burn out.

It generates a clean, dustless heat; it purifies the air of the room; it heats every nook and corner with absolute uniformity.

We have produced 788 degrees Fahrenheit at the top of the air chamber WITHOUT IN ANY WAY INJURING THE STOVE. Stove manufacturers have depended upon scattering heat energy by radiation as the principal means of heating. We do not lose sight of radiation and have a deeply ribbed corrugated fire pot which allows for air space around the fuel and rapid radiation on the outside.

## KEEP LOOKING YOUNG

It's Easy—If You Know Dr.  
Edwards' Olive Tablets

The secret of keeping young is to feel young—to do this you must watch your liver and bowels—there's no need of having a sallow complexion—dark rings under your eyes—pimples—a bilious look in your face—dull eyes with no sparkle. Your doctor will tell you ninety per cent of all sickness comes from inactive bowels and liver.

Dr. Edwards, a well-known physician in Ohio, perfected a vegetable compound mixed with olive oil to act on the liver and bowels, which he gave to his patients for years.

Dr. Edwards' Olive Tablets, the substitute for calomel, are gentle in their action yet always effective. They bring about that natural buoyancy which all should enjoy by toning up the liver and clearing the system of impurities.

Dr. Edwards' Olive Tablets are known by their olive color. 10c and 25c.

New Salem M. P. Church Gives Star to Each Soldier Represented

The New Salem Methodist Protestant church's service flag was "demobilized" at the rally and home-coming service Sunday. Following a stirring address in the afternoon by Judge Will M. Sparks of this city, the pastor called the roll of the soldiers in the Sunday school and as the boys came to the front, each was given a star from the flag. A rally day program was given by the Sunday school children in the morning and a basket dinner was served in the church at noon, after which old acquaintances with the returned soldiers were renewed and new ones formed.

Reel them off—"Rio", Gibraltar, Ceylon, Yokohama—all the great ports of the world—are they only places on the map to you—or are they ports where you've gone sailing in from the high seas with every eye along the shore turned admiringly on your big ship—your ship! Every ocean has a United States ship sailing for some port worth seeing.

If you've any call in you for a full life—join, and color all your years ahead with memories of things worth seeing—with knowledge worth having—with an inexhaustible fund of sea tales and adventures picked up ashore and

afloat that will make you a welcome man in any company.

Work?—sure, and a man's work it is, among men.

Play?—well, rather, with a bunch of men who know how to play. These comrades of yours carry in their ears the sounds of great world cities, of booming guns, of swashing seas—sounds you will share with them and that will never die away.

And when you come home, you'll face life ashore with level eyes—for Uncle Sam trains in self-reliance as well as self-respect. The Navy builds straight men—no mollycoddles.

## NO LUXURY IN ROYALTY'S TOUR

Two Maids are all Queen Elizabeth Has With Her, Both Being Belgian Girls.

ECONOMY IS WATCHWORD.

Entire Luggage of Royal Party Together With Servants Consists of 130 Pieces

New York, October, 15—There is no flourish of extravagant luxury in Belgian royalty's tour of America. "Economy" is the watchword.

Two maids are all Queen Elizabeth has with her. The lesson of thrift preached to American housewives by Herbert Hoover is being strictly followed by the queen. Both maids are Belgian girls and came across the ocean with the royal party.

One lady-in-waiting, the Countess C. de Caraman-Chimay, is in attendance on the queen.

Simple white and gray dresses feature Queen Elizabeth's attire throughout her journey over "The Wonderland".

The king has one personal servant, his valet. Prince Leopold also carries a valet. Add to this a maid for the Countess de Caraman-Chimay, and the servant equipage of the royal party amounts to five people.

Six men, in the capacity of footmen, accompany the monarchs on their tour. They are strong able-bodied Belgians, and in addition to being in close attendance on the Belgian rulers, they will also keep an eye on the look-out for any loose Belgian anarchists.

The king wears the uniform of a Belgian private since leaving Brussels, and unless King Albert decides otherwise, he will wear it practically all of the time he is in the United States.

The entire luggage of the royal party, consisting of the king, queen, prince, the officials attached to it, together with that of the servants, consists only of 130 pieces.

## 2 PRIZE FIGHTS ON TURKEY DAY

Big Championship Bouts Will be Staged on Thanksgiving Between Leonard and Tendler

HERMAN OUT FOR ANYONE

One Will Take Place at New Haven and The Other in New Orleans—All Well Known Fighters

New York, Oct. 14—Two big championship fights have practically been arranged for Thanksgiving Day.

Benny Leonard, world's light weight champion will meet Lew Tendler, the Philadelphia light weight in a fifteen round, no-decision bout at New Haven. Pete Herman, batam champion will meet either Pal Moore or Joe Lynch at New Orleans.

The Leonard-Tendler mill has the promise of being one of the season's best battles. The Quaker light weight, despite the whipping he received from Willie Jackson has everything that brands him a real candidate for the crown worn by Billy Bibson's champion. Tendler has been yelping for a fight for months and so thoroughly convinced the fans of his sincerity that they made a demand for a chance for the Sleepy City boy that Gibson couldn't turn down.

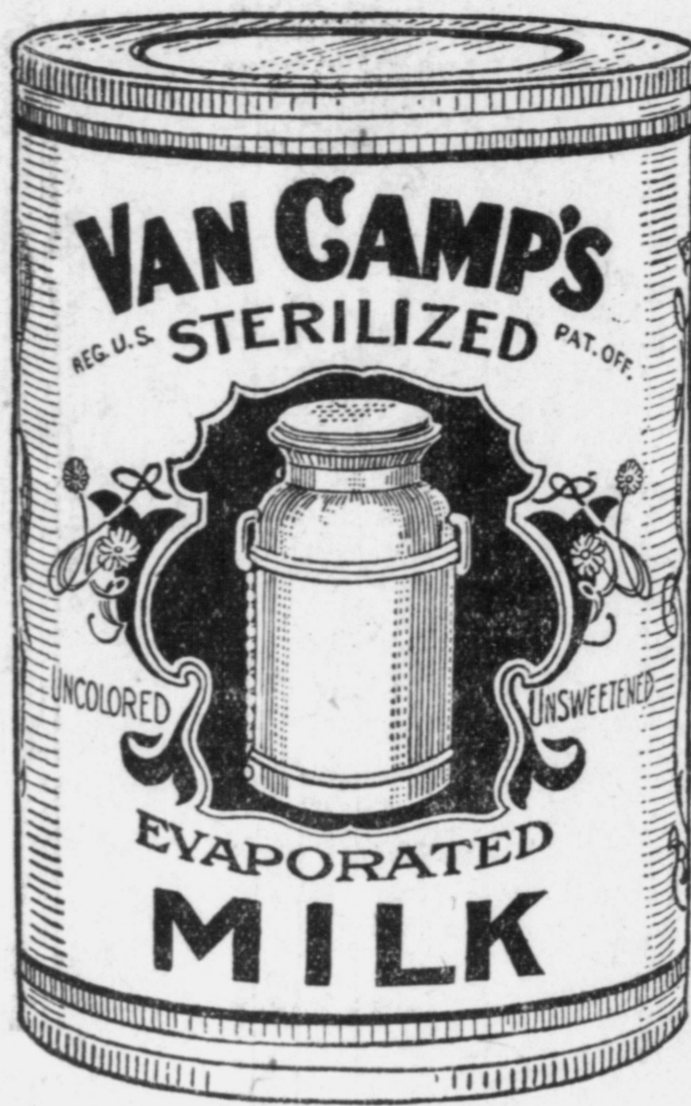

Pete Herman wants to get back into the good graces of the fans who have been panning him of late. He has agreed to fight anyone on Turkey Day that his manager will sign up. He'll take either Pal Moore, of Jimmy Wilde fame or Joe Lynch, the New York flash. Rather than have the two aspiring little fellows run the risk of broken limbs in the rush after the match he suggests that Moore and Lynch get together about Oct. 20 in some ring, and decide who gets to put on the gloves for the crack at the championship.

Fans who saw that go between Lynch and the champion at New

## Our Milk Offer

To Homes with Children in Them

The Finest Milk Produced In America

"The Cow in the Pantry"

Milk from High-Bred Cows  
Double-Rich  
Utterly Germless

Van Camp Products Company  
Indianapolis, Ind.

We prefer to sell Van Camp's Milk to homes with children in them. To such homes it is all-important, and we can never supply it to all.

We offer them this:

A milk from high-bred cows, fed in rich dairying districts, kept in sanitary dairies and regularly inspected.

A pasteurized milk, utterly germ-free. It has none of the dangers of raw milk.

An extra-rich milk, with twice the butter fat of bottled milk. Reduce it to the richness that you like.

No Extra Cost

This ideal milk costs you no more than other evaporated milk.

It costs you less than milkman's milk—much less, for it saves all waste. You can keep small cans and large cans ever on the shelf. Open what you need.

The Van Camp experts have spent 20 years to bring you a milk like this. They have bought thousands of high-bred cows. They have established condenseries in seven great dairying districts.

There the fresh milk is put into a vacuum. Under a low heat we remove half the water. Then we sterilize the milk.

The milk is otherwise unaltered.

Use it as it comes for your coffee. Dilute it somewhat for cereals. Add an equal part of water for drinking. Dilute it still further for cooking.

The New-Day Milk

This is the new-day milk. It is bound to displace germ-laden milk in any careful home. Or milk from common cows.

It has come to save waste. It will encourage milk using because it is clean and safe, but it saves on the left-over milk.

Compare it with bottled milk. Compare it with other evaporated. You owe that to yourself and yours.

## NEEDS MONEY TO PAY COST OF CONFERENCE

Government Finds Itself in Fix With No Funds to Finance International Meeting

TREATY RATIFIED BY THREE

(By United Press.)

Washington, Oct. 14.—With the peace treaty just on the verge of going into effect through ratification by three major powers, the government today found itself in need of funds to carry out the program.

The international labor conference is to meet here October 29 and delegates will begin arriving within three days.

The sum of \$200,000 will be needed to finance this. Whether congress will appropriate the money in time to be used was problematical today.

Unless the peace treaty has been ratified by the senate before October 20, the United States will be unable to have any representation in this labor conference.

Haven were almost one in declaring that the New York boy made the southerner look foolish. Herman retained his championship by running away they claimed. If Lynch and the little Pete do get together in a bout of reasonable length, the following of the Gotham scrapper will lay odds that their idol will bring home the crown.

## PEOPLE ARE NOT ALIKE

Neither Are All Spreaders Alike.

Right now, at a time when the uncertainties following war conditions are being ELIMINATED, is the time to buy your manure spreader. NOW is the time, when it is almost a crime to waste and to not take advantage of every possible soil improvement.

The man who owns land and is giving real thought to this matter, knows that to put off buying a spreader is folly at this time. Delay means loss. If you are going to buy a manure spreader, remember there is more difference in these machines than there is in human beings. I do not claim that the Rushville Special Spreader is the only good spreader made, but it is so much better than the best of any other make that you can't afford to buy anything else.

That patented "BULL DOG" double acting beater wheel, can't be clogged—you can't stick it. Just think of this, the next time you see a neighbor's pitch fork going with him to the field. Don't forget the "NO-CHOKE" box that can't be clogged, at least it has never yet been stuck with any kind of material.

There is a reason for using the expensive Litchfield hitch, and the Company knows what it is. It means a perfect equalization, and not a horse killer. The manufacturers would not put the extra expense into this, which is required, unless it had merit to justify.

Stop in and see the "Rushville Special" Spreader. You will like it.

## Big Lot of Hay Fever Jokes

But Kentucky Man Says—"People Who Belong to Hay Fever Colony are Kidding Themselves."

Wouldn't Be Any Rose or Hay Fever if Simple Home Remedy Was Given a Chance.

"Yes, there's a real NINETY-NINE per cent effective remedy for hay or rose fever," frankly states a druggist in a prosperous Kentucky city.

"But I don't expect anyone to believe me, because the treatment is so easy and the cost not worth mentioning."

"The annual crop of hay-fever jokes would be mighty scarce if people would get an ounce of Mentholized Arcine and by just adding water that has been boiled make a pint of liquid that will prove a real help to all who suffer."

"Many of my hay-fever friends tell me that by starting to gargle and sniff or spray the nostrils a few times a day the expected severe attack often fails to appear and in cases where it does show up is very mild and does not annoy."

"The Better Class of Pharmacists" who dispense Mentholized Arcine say it will greatly modify any attack even when taken three or four days after hostilities begin.

Go to a real live druggist when you get ready to make a pint.

## 7 A DAY FOR 7 DAYS

If Your Nerves Are Shaky Because of Over-Indulgence in Tobacco or Alcohol or by Excess of Any Kind, Bio-Feren is What You Need Right Away.

Don't grow old before your time, don't let nervousness wreck your happiness or chances in life. The man with strong, steady nerves is full of vigor, energy, ambition and confidence.

You can have nerves of steel, firm step, new courage and keen mind by putting your blood and nerves in first-class shape with mighty Bio-Feren, a new discovery, inexpensive and efficient.

Men and women who get up so tired in the morning that they have to drag themselves to their daily labor will in just a few days arise with clear mind, definite purpose and loads of ambition.

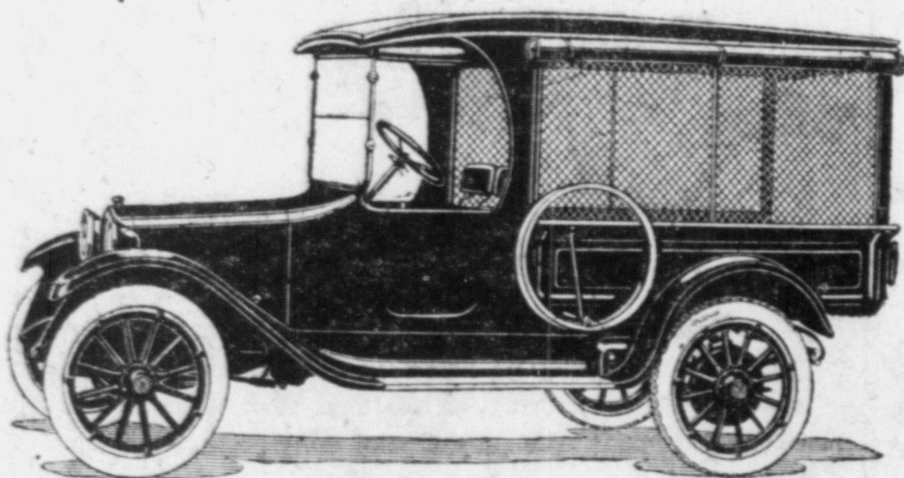

All you have to do is take two Bio-Feren tablets after each meal and one at bedtime—7 a day for 7 days—then reduce to one after each meal until all are gone.

Then if your energy and endurance haven't doubled, if your mind isn't keener and eyes brighter, if you don't feel twice as ambitious as before, any druggist anywhere will return the purchase price—gladly and freely.

Bio-Feren is without doubt the grandest remedy for nervous, run-down, weak, anaemic men and women ever offered and is not at all expensive. All druggists in this city and vicinity have a supply on hand—sell many packages.

## Nash Trucks

Experienced Buyers Recognize  
Unusual Values of Nash Trucks

Careful investigation of the Nash truck line convinces the experienced buyer of the high value of any truck bearing the Nash name plate.

This is illustrated again by the fact that after an extensive experience with motor truck transportation of various types, the U. S. Marine Corps selected the Nash Quad as standard equipment for expeditionary service. This is the reason Nash trucks are hauling the loads of many big commercial concerns which operate fleets of trucks in many cities.

This preference for Nash trucks is based on sound business judgment. For they have behind them, assuring their continued good performance, the standing and permanency in the industry of the Nash institution with its nation-wide sales and service organization of distributors and dealers.

Nash Trucks—One-Ton Chassis, \$1650; Two-Ton Chassis, \$2250; Nash Quad Chassis, \$3250.

BERLIN CAN NOW BUY SOAP

Fat Supplies Have Arrived and Soap is on Market

(By United Press.)  
Berlin, (By Mail).—It is now possible in Berlin to buy a cake of soap without mortgaging the old homestead, without a birth certificate, a voucher of good character, or a "stand in" with the authorities. Formerly soap was so scarce and so under government control that the ordinary mortal had to content himself with a substitute for soap much akin to lye.

Now, fat supplies have arrived from the outside world and the government has decided that soap can be sold without ration tickets. At the same time, it is removing restrictions on shoe rationing.

## FROST AND RAINS BRING THE NUTS

"Kids" Are All Stained up From Gathering Walnuts Which Are Bountiful and of Good Quality

### DEALERS LOOK FOR SHORTAGE

Imported Variety for Christmas Trade Will be High—Hickory Nuts Are Plentiful Now

Hands stained a rich dark brown are all the vogue these days amongst the boys of school age, and the reason therefor is simple. It is the season of the year when walnuts are ready for the harvest.

Nearly every lad of fourteen years or thereabouts one sees these days will be found with hands of dusky hue and if questioned as to the cause, will grin and remark, "I got a peek, or a half bushel or some other amount of walnuts, yesterday."

There are few men of mature years who do not recall their boyhood days and the time when they went into the woods in the early fall for the meaty nuts so relished later in the season when weather conditions are severe enough to compel one to stay in doors. Few too but recall those days as the most pleasant in their lives and perchance long for a return.

Boys we have talked to this year who have made an excursion into the nearby woods, tell us that the nuts are rather plentiful, considering that the great bulk of timber has been cleared away. While a goodly supply has already been gathered, none to date have appeared on the local market, which this week begin showing for this first time this season. A few imported nuts. In a few weeks stocks will be displayed prominently for the season will have advanced when there will be a great demand for them.

For the first time in many years, the hickory nut crop is unusually better than before, and the quality of them is said to be of an excellent taste. The walnuts this year are also of the good tasting kind, as the summer and fall weather was considered ideal for their ripening.

The heavy rain last week caused the nuts to fall from the trees and according to some who were gathering them, the ground was covered and little trouble was encountered in getting a supply.

Imported and domestic nuts will be sold at constantly higher prices this season as compared with last, dealers say, for they like all other food stuffs, seem to have caught the idea of the prevailing rising market.

One dealer today, who is showing some fancy washed Brazilian nuts, quoted them at 50 cents a pound, the same as last year, but said he only did this, due to the fact that he bought some time ago and that the same nut, if purchased now, from the jobbers, would have to retail at 65 cents a pound.

There are a few English walnuts in this country held in storage from last year and they may be retailed at a price somewhat similar to last year, but the new supply will be higher. California nut growers are not even giving out quotations on their product at this time, merchants assert.

## TAKES UP BONUS QUESTION

Indiana Branch of American Legion Opens Meeting Today.

Indianapolis, Ind., Oct. 15—The Indiana branch of the American Legion, opening its meeting here today, was expected to take up the bonus question, the matter of forming a woman's auxiliary to the legion, the form of membership of colored men, the policy of national defense, war risk insurance and all other questions which will come before the national convention in Minneapolis next month.

The meeting opened in the house of representatives at the state house. Representative was one delegate from each of the ninety-eight posts and one delegate for each one hundred paid-up membership of any post.

## TAKES FLAG TO COLONEL'S GRAVE

Boy Scouts Carry Memorial From Buffalo to Oyster Bay Where it Will Fly Over Grave.

### STAR SEWED ON AT EACH STOP

Plan is to Have Flag Reach Oyster Bay in Time For Roosevelt's Birthday, October 27.

West Point, N. Y., Oct. 15—The Roosevelt memorial flag, being carried by boy scouts from Buffalo to Oyster Bay, where it will fly over the grave of Theodore Roosevelt, passed through here today.

The flag, without stars, left Buffalo September 3rd. Throughout its journey it has been carried on foot by boy runners, each training a mile of the 400 mile trip.

At each stop a star was sewed on. When it arrives in New York City it will have 45 stars. Another will be attached at Brooklyn, another at Mineola and the last at Oyster Bay. The sewing has been done by patriotic and civic societies such as the Daughters of the American Revolution and similar bodies of women.

Up to date stops have been made at Batavia, Elmira, Rochester, Canandaigua, Geneva, Watkins, Oswego, Binghamton, Cortland, Ithaca, Auburn, Syracuse, Rome, Utica, Little Falls, Ponda, Johnstown, Amsterdam, Schenectady, Plattsburg, Elizabethtown, Port Henry, Ticonderoga, Whitehall, Fort Ann, Hudson, Catskill, Kingston, Poughkeepsie, Newburgh and West Point.

The plan is to have the flag reach Oyster Bay in time for the Colonel's birthday, October 27th. The next stop will be Peekskill, October 16th, then Stony Point, October 17; Tarrytown, October 18; Yonkers, October 20; White Plains, October 21; the Bronx, October 22; New York City, October 23; Brooklyn, October 24; Mineola, October 25th and Oyster Bay, October 26th.

The relay was planned by the Roosevelt Memorial Association. Appropriate exercises have been held in cities and towns along the route as the flag traveled toward its destination.

## COUNTY TAX RATES ANNOUNCED TODAY

Levies For All Units Are Less Than  
Half of Old Ones and in Some  
Cases Only a Third

RATE IN RUSHVILLE IS \$1.52

Each Taxpayer May Now Determine  
Effect of The New Tax Sys-  
tem in His Own Case

The tax levies for Rush county next year, under the new tax law, were completed yesterday by the state board of tax commissioners and were received today by the Daily Republican. All of the rates are less than half of this year's and in some units are only one-third of this year's.

Thus it will be seen that with only a few exceptions taxpayers will pay less taxes next year than they paid this year, despite the claims which have been made that taxes would be much higher next year due to the increased valuations under the new law.

The majority of the people of the county will pay less taxes than under this year's rates, notwithstanding the extraordinary costs of the war period and extensive building improvements, such as road building and the increased cost of schools. The tax commissioners attribute such results to a fuller listing of taxables, to the inclusion of great amounts of intangibles that hitherto evaded assessment successfully, and to a more even and just distribution of the tax burden.

Rushville city's rate is the only one in the county above the \$1.50 legal limit and it is only \$1.52 as compared with \$4.00 this year. Since assessments have been completed, each taxpayer will be able to determine the effect of the new tax system in his own case, as the rates for each unit in the county, compared with the old levies, are given herewith, including the state tax rate of eighteen cents:

	New Levy	Old Levy
Carthage Corp. ....	\$1.34	\$3.62
Ripley .....	.95	2.27
Posey .....	.90	2.30
Walker .....	.97	2.86

## TO MAKE PHYSICAL RECORD OF CHILDREN

Dr. Lowell M. Green to Supply Data  
On Which Board of Guardians  
Will Base Its Efforts.

SACRIFICE CLUB PAYS BILL

A physical record of all the school children in the first eight grades of the city, to supply information for the county children's board of guardians, will be made in the near future by Dr. Lowell M. Green, it was announced by a member of the board today. The children will be given a thorough examination of the eyes, ears, nose, throat, lungs and other parts of the body to locate defects which may be corrected before it is too late.

The card system will be used and a duplicate made of every examination. One card will be sent to the parents of the child and the other one to the children's board of guardians. Where the parents are unable to pay for correction of the physical disabilities of their child or children, the board will endeavor to have it done.

The Tri Kappa sorority is conducting a Sacrifice Club to finance the board in this work. Members of the sorority obtain members of the club who pledge themselves to give five cents a week for this charity.

## TAKEN TO OXFORD HOSPITAL

Sam Herkless of Near Carthage is  
Declared Insane

Sheriff Jones has returned home from Oxford, O., where he went with Sam Herkless, who will take treatment at the hospital for the insane. Monday afternoon Sheriff Jones was called to the Herkless home, four miles south of Carthage, on account of the condition of Mr. Herkless. Mrs. Louisa Herkless, his mother, filed insanity paper against him, and he was taken yesterday to the private institution at Oxford for treatment. Sheriff Jones took Mart Cleverger with him as a deputy and Herkless was disarmed before he had an opportunity to cause any trouble.

## MINERS ORDERED TO STRIKE NOV. 1

Four Hundred Thousand Are Affected  
Directly and Others Will  
Respond, it is Said

FAIL TO REACH AN AGREEMENT

John Lewis, President of U. M. W.  
of A. Issues Order Today Be-  
fore Leaving For Washington

(By United Press.)

Washington, Oct. 15.—The strike of bituminous coal miners November first will entice the railroads with only a ten-day supply of coal, according to the data laid before the senate coal investigating committee.

Indications are that a shortage this winter will be inevitable.

Indianapolis, Ind., Oct. 15.—Four hundred thousand coal miners were ordered to strike November first in a call issued today by John Lewis, president of the United Mine Workers of America.

It was issued following failure of union leaders and the coal operators to get together and settle the demands made by the miners.

Although the order affects only 400,000 men directly, it was announced that more than a half million will respond.

It was stated that the union laborers were not the only ones to join the strike but those miners not belonging to a union are also prepared to walk out on November 1.

The strike is the direct result of the conference between miners and operators represented at Philadelphia which adjourned Saturday without reaching an agreement.

The order was signed by John Lewis and William Greek, secretary-treasurer of the miners' organization.

"It instructs the members of our organization, employees in and around the mines of coal producing districts, within jurisdiction of our organization to cease production of coal on Friday, October 31."

The strike thus will continue in full force and effect until officially terminated by order of the international union, the order said.

John Lewis left late today for Washington to confer with Secretary of Labor Wilson and Thomas Brewster, representing the coal operators, association, and to attend the industrial conference.

## SECOND NUMBER OF COURSE FRIDAY

Halwood Robert Manlove, "The Man  
of Many Faces" Will Appear  
at First Baptist Church

DELINEATOR OF CHARACTER

Career as Varied as Program is  
Versatile—Audience Laughs  
and Cries With Him

The second number on the lyceum course will be given Friday night, at eight o'clock in the First Baptist church, when Halwood Robert Manlove, an entertainer of rare ability, will appear. The first number was given a few weeks ago, when the Fredericks Concert company appeared here. The course this year is given under the auspices of the Rushville Ministerial Association, the same as last year.

Manlove, who is known as "the man of many faces," comes as a guaranteed attraction. He is considered more than an impersonator. In his character delineation, Manlove is an Irishman, Swede, Jew, Dutchman, Frenchman, Italian, old man, rube, maniac, grouch, silly kid, tramp, dude and what-not. He laughs and cries and as he laughs, the audience will laugh, and as he cries, he turns the audience with him.

His career has been as varied as his program is versatile. He has been known in a half dozen companies or more; today he is a whole show in himself. "I'm just plain Manlove," he says.

But he is not plain. He is extraordinary, and has been placed on the list by himself, as there are no other such persons on the lyceum comedian list. He has demonstrated time and time again that the cleverest comedy work can be done without a suggestion that would offend.

## RED CROSS OF COUNTY WILL MEET OCT. 29

General Meeting for the Election of  
Officers and Future Welfare  
Will be Discussed

ALSO STATE MEETING OCT. 21

On the afternoon of Wednesday, October 29, a general meeting of the Rush County Red Cross will be held in the assembly room in the court house, for the purpose of electing officers, and the consideration of the policy and activities of the organization for the following year.

On October 21 there will be a meeting in Indianapolis of delegates from the chapters in all the counties in the state, at which plans for the roll call drive, November 2 to 11, will be discussed. The meetings will be addressed by some of the most prominent members and officers of the Red Cross organization in the country, including Dr. Livingston Ferrand, peace-time leader of the Red Cross. A delegation from the Rush County chapter will attend the conference. The program for the Indianapolis meeting is as follows:

10 a. m. Conference of chapter delegates with division department officers. Hotel Severin.  
3 p. m. Dr. Farrand's address to Chapter Delegates, Hotel Severin.  
8 p. m. Public mass meeting, Cable Mills Hall.

ONE GIRL RECOVERS

Chicago, Oct. 15.—Edna Luikart, poisoned by her mother, has recovered to the extent that she could get out of bed today. Dr. Carter, her physician, stated. Shirley will not be able to leave her bed before a week.

## SALARY INCREASE TO CAUSE DISPUTE

Chief of Stage Board of Accounts,  
Says Assessors Don't Get More  
Until January 1

MANY DISAGREE WITH HIM

All Rush County Assessors Paid  
Rate Provided in New Law  
After it Became Effective

Just what effect a ruling made by Jesse Eschbach, head of the state board of accounts, that the salary increases granted township assessors will not be effective until January 1, 1920, will have in Rush county is problematical. The salary increases to the township assessors were granted in the new state tax law. As soon as this law became effective the assessors were given the increase in pay and now the state board says this should not be done until January 1, 1920.

Thus the assessors find themselves working under the new tax law and drawing pay under the old law. Local attorneys do not believe Mr. Eschbach's ruling is sound and declare it will not stand a test in the court. Attorneys point out that the law cannot be made to apply in parts and that the discrimination if the interpretation of Mr. Eschbach is followed would never stand in any court.

The township assessors were formerly paid at the rate of \$2.50 a day. This was increased to \$4 a day by the new tax law. The assessors here were paid at the rate of \$2.50 a day until the new tax law became effective and then they drew the sum of \$4 a day. The tax law had not been passed when the assessing season started and since there was an emergency clause in the law, local officials believed the

## CORTUEER PUT UNDER A \$500 PEACE BOND

Indianapolis Man Returns to His  
Home Today After Arranging  
to Provide Surety

HEATON GRANTED NEW TRIAL

Nothing was going on in circuit court today, but tomorrow the case of Herkless against Henry is set for trial, after being carried over for a number of terms of court. The case is a controversy over land in the neighborhood of the I. & C. power house.

Martin Corteur, who was found guilty by the jury the other day, was arraigned this morning before Judge Sparks and placed under surety of peace bond of \$500. The bond was placed in the squire's court at \$1,000. Ignatz Kratoch of Indianapolis went on the bond. Corteur left immediately for Indianapolis. The surety of the peace bond holds good for one year, during which Corteur is to "live at peace with the citizens of Indiana, and especially, Mrs. Matilda Gray," his former wife, whom he threatened to harm.

Judge Sparks has granted the petition of Sanford Heaton, who asked the court for a new trial, and October 27 has been set for another hearing. A few weeks ago Heaton was fined a dollar and costs for assault and battery, and his attorneys filed a petition asking for a new trial, stating that the court had erred on twelve different occasions, and that Heaton was not given a fair trial. It is a state case, with Arie Colestock as prosecuting witness for the state.

## CAPT. PERRY ONEAL LANDS

Arrives at Camp Dix and Expects to  
be Discharged Soon.

Mr. and Mrs. Lien Oneal received a telegram this morning from their son, Capt. Perry Oneal, who has landed at Camp Dix, and they expect that he will be discharged and will come home in a few days. Capt. Oneal received a commission in the first officer's training camp at Fort Benjamin Harrison and went overseas with the 84th division, which was formed at Camp Taylor, Ky. He was held with the Army of Occupation and has been in France commanding a number of German prisoners who were working in a stone quarry. Capt. Oneal was a partner of John A. Tittsworth and was engaged in the practice of law when he entered the service.

## MAILED FIST HITS GARY REDS TODAY

Forty Homes Suspected of Being  
Centers of Revolutionary Ac-  
tivity Are Raided

EIGHTEEN MEN ARE ARRESTED  
Practically All Members of Secret  
Council of 22 Held—Printed  
Propaganda Found

(By United Press.)

Washington, Oct. 15.—An attempt to secure more definite action against the reds and radical agitators in this country was expected in the senate late today.

Adoption of the Poindexter resolution calling on Attorney General Palmer to explain his failure to arrest and deport agitators will be sought, with the possibility of its passage.

Poindexter charges that threats on the government are being widely agitated and that little effort is being made to capture those responsible.

Gary, Ind., Oct. 15.—The mailed fist fell today on the Gary reds and bomb plotters. Forty homes suspected to be centers of the revolutionary activities were raided between midnight and dawn this morning by United States soldiers.

Eighteen men were taken into custody and held with forty others taken previously.

An army truck was called into service to carry away printed propaganda found in the city.

Reports that today was the day set for the closing in on all suspects have been current for a week, it was declared.

A secret list containing 700 names of red agitators fell into the hands of the intelligence officers shortly after the soldiers took over control. The intelligence officers have determined to take no chances with the suspects and are investigating their activities.

In the list was named a secret council of 22 which directed the work of the large organization.

Practically all of the members of the council are now under arrest.

Colonel Mapes today adhered to his policy of requesting newspaper men to refrain from mentioning places raided or names of those taken.

CITY RECORDS CORRECT

City Treasurer George Helm this morning received a notice from Jesse Eschbach, chief of the state board of accounts, stating that the field examiners who were here a few weeks ago, found the city accounts correct. The copy is on file with Mr. Helm and a detailed report can be seen by anyone interested.

## SOLDIERS HERE TO RECRUIT MEN

Sergts. Chaney and Allen and Corp.  
Fisher Arrive Today in Mam-  
mouth Army Truck

CARRY RELICS OF THE WAR

Will Remain Until Tomorrow Night  
to Obtain Enlistments For  
One to Three-Year Terms

A United States Army recruiting truck arrived in Rushville this morning, for a two days stay, the main purpose of which is to secure enlistments for the army on a one to three-year term. This truck is the only one of its kind in the United States service and carries a complete assortment of machine guns and rifles, helmets, gas masks, breast protectors and many small articles of importance.

In charge of the army truck is Sergeant Chaney, Sergeant Allen and Corporal Fisher. All men between the ages of 18 and 40 who care to enlist for foreign service should confer with the men in charge of the truck.

A twenty-day tour of Indiana is being made by the truck to get enlistments in all branches of the service. Sergt. Chaney remarked today that any man who is not making at least \$91.50 a month should consult with him as there are many positions open which will pay that much and more.

The truck will exhibit on the streets down town, and will remain open until 8:30 each evening during its stay here, which will be today and tomorrow. Another advantage pointed out by the officers is that anyone who does not have a trade, may pick one from the list offered, and the government will teach it, the recruit receiving pay at the same time.

The exhibition of the guns and war relics is worth one's time in paying the army truck a visit. No admission is charged for the exhibit, and the public is cordially invited, whether interested in enlistment or not.

## ALL COUNTY OFFICIALS ARE GIVEN CLEAN BILL

Field Examiners For State Board of  
Accounts Find Records of Of-  
fices For 1918 Correct

RECORD OF TREASURER

All county officials have received a clean bill from the state board of accounts for the year 1918, with the exception of the clerk of the court, whose records were examined for 1918 and up until August 1, 1919, when George B. Moore, Jr., resigned and Loren Martin became clerk. John B. Seitz and E. H. Pritchard, field examiners, made the examinations.

Touching on the report on the treasurer's office, Charles A. Frazee, county treasurer, today called attention to the fact that the examiners for the state board of accounts have found a mistake of only six cents during the four years that John O. Williams, his predecessor, was in office. Mr. Williams retired December 31 last.

Mr. Frazee figured up this morning that the receipts in the treasurer's office during those four years amounted to \$3,280,426.43, which represents approximately 680,000 transactions in the collection of taxes alone. There are about 8,500 taxpayers in the county and they pay taxes twice a year.

## TUBERCULOSIS LESS AMONG DAIRY CATTLE

Report Shows Big Decrease and From 19 Herds Only 22 Percent Is Shown as Diseased.

### LIVE STOCK BOARD IS BUSY.

Indianapolis, Ind., Oct. 15.—Notwithstanding official figures compiled from nineteen Indiana herds show that there is only 2.2 percent of tuberculosis among dairy cattle, the effort of the Indiana Live Stock Sanitary Board to increase the number of accredited herds, that are tuberculosis free, will be continued with unabated zeal, according to Dr. L. E. Northrup, state veterinarian today.

Including beef herds, the same authority shows 3.6 percent of reactors in 188 herds tested for tuberculosis. This is regarded as a comparatively low figure, and indicates a better condition than live stock officials had been lead to expect from original surveys.

Officials of the Indiana Dairy Association, as well as the Live Stock Breeders, who have knowledge of the efficiency of the tuberculin test

in relieving cattle from liability to infection are cooperating with the Sanitary Board and the State Veterinarian in advocating the application of the serum. Figures are available, according to Dr. Northrup, to prove that tuberculin tested herds are an added asset due to the public confidence they inspire, and for which the public is willing to pay, as well as the increased security against inferior stock, which can be translated into cash saved in insurance and realized at the market.

### Days Pickings

George W. Legg of Washington township, who has been confined to his bed for four years, celebrated his ninetieth birthday last Friday and received the congratulations of his friends. Although compelled to remain in bed, he is in good general health and in fine spirits.

Mrs. H. M. Westhafer of Arlington, who is sick at the home of her son in Newcastle, is only slightly improved, according to word received here today. Mr. and Mrs. S. S. Offutt, Prof. and Mrs. W. E. Waggoner, Mrs. Ruth Eaton and Mr. and Mrs. W. G. Richey motored to Newcastle Sunday to visit her.

## URGES SEED CORN SELECTION NOW

Food Conservation Committee Says That a Large Corn Crop Is Expected Next Year

### BIG AREA AVAILABLE IN 1920.

With Corn Ripening Earlier Because of Hot Weather, Selection Can Now be Made

Indianapolis, Ind., Oct. 15.—A large corn crop is needed and anticipated for 1920 according to statements made by members of the Indiana Committee on Food Production and Conservation today. In order to meet the demand for good seed the Committee believes that every effort should be made to obtain a large amount of good seed corn immediately. Good, strong seed corn will undoubtedly be scarce and high in price next spring and it should be the object of every corn grower to gather twice the amount of corn he needs for seed from the field now.

The extra dry weather has hastened the maturity of the corn crop, making it possible to get large quantities of good dry seed in nearly every section of Indiana. The same weather condition is causing some reduction in the wheat to be sown this fall, making a larger area available for corn in 1920. With a world's deficit of more than 400,000,000 bushels of corn, a larger acreage will be welcomed and the importance of planting this with the best seed obtainable is paramount.

The value of good seed is emphasized in a recent Purdue publication in which the writer says that "one good ear of corn selected for seed in the field should mean five bushels the next year."

"During the past season there have been extreme droughts in certain sections of the state which to a certain degree dwarfed to corn type. In some cases the farmer may conclude, that this corn at Purdue has proven that where a good type of corn was dwarfed by a dry season, seed selected from it produced the original typed corn the following year if the conditions were again favorable. Now, which is the best proposition: to select your seed from the dwarfed corn and know you have have a good germinable seed well adapted to the soil and climatic conditions, or go into some other locality and bring in corn which is questionable as to adaptation."

**We're as Near as the Nearest Phone.**

Beautiful fresh flowers may be ordered here for delivery on a few hours' notice even in the most distant towns and cities. Our service extends all over the United States, Canada, Ireland and England.

If you have a sick friend to whom you wish to send flowers, or one who has just passed away and you wish a spray of flowers sent in token of your remembrance and esteem of them, it matters not how far the city may be, we can deliver them for you on time. The order will be wired, code form, to the leading florist, he in turn will fill same, using always the best flowers to be had, and will deliver promptly even though he has to drive with them to a neighboring town.

To begin with only the best florists are chosen as members of the F. T. D. (Florists Telegraph Delivery), and must pay a substantial entrance fee. This is used as collateral or guarantee that the flowers you order will be what you order and more than anything else, that you shall have value received.

This makes it safe for you to order what you wish, and there are times when this system comes in very good. Whenever you have occasion to use this system, call us up and we can more fully explain.

**Industrial Conference Adjourns, Postponing Vote Until Tomorrow**

(By United Press.)

Washington, Oct. 15.—After postponing for the day the vote on the labor proposal for mediation of the steel strike, the national industrial conference adjourned until 2:30 tomorrow.

Defeat of the labor proposal seemed certain today, it was said. Members of the public group led by B. Baruch, fearing an adverse vote on the steel strike resolution which might cause a break in the conference, set to work on new arbitration plans and so delayed the vote on the steel strike resolution which was scheduled for this morning.

Last Friday night, the opening game between Rushville and Arlington resulted in a walkaway for the locals, who had not practiced together as a team, and improvement is expected with only the one week of systematic practice. The line-up will be announced tomorrow night.

**PPRESIDENT WILSON IS BETTER TODAY**

**Physician's Statement Says He Had Good Nights Rest and Showed Improvement**

**IN TOUCH WITH CONFERENCE**

(By United Press.)

Washington, Oct. 15.—President Wilson was better today, said the bulletin issued by his physician at noon.

The statement said: "The president had a good night's rest and enjoyed his breakfast and with the exception of a slight headache, continued to show improvement."

Through the aid of Dr. H. A. Fowler, a Washington specialist, the swelling of the prostate gland, was reduced late yesterday.

The president is in touch with the industrial conference and will resist any move which might threaten to break up the meeting.

The conference has accomplished some of the purposes for which it was convened, the president stated.

**SALARY INCREASE TO CAUSE DISPUTE**

**Continued from Page One**

salary there was an emergency clause in the law, local officials believed the salary section became operative at the same time the other sections went into effect. The assessors drew their pay at the rate of \$4 a day after about three weeks of the tax assessing period. It will be a difficult problem to get this money back into the county treasury, it is stated, and a dozen or so law suits might result in Rush county to say nothing of those in all other counties of the state.

The same situation existed in other counties as did in Rush county. The assessors worked under the new law and drew their pay on the increased scale. They took the money in good faith, it is pointed out, and efforts to collect the money would probably prove very difficult.

The announcement by Mr. Eschbach did not state the course that would be followed. It was declared here today that the opinion of the state board did not necessarily make the law and before the question is finally decided a ruling of a court may be necessary.

**—the phonograph which amazed all Rush County**

Are you one of those who believe that no phonograph can match the voice of the living human? An astonishing discovery awaits you—like the 1200 people of our county who attended the Amy Ellerman—Fleming Sisters recital.

Thomas A. Edison gave his famous Tone-Test the night of October 3rd, at the Main Street Christian church. He had Miss Ellerman sing in direct comparison with the RE-CREATION of her voice by the New Edison.\* Then he had the Fleming Sisters Instrumental Trio play in similar direct comparison with the Re-Creation of their art by the New Edison.

Music lovers were completely baffled. Their ears were unable to distinguish the RE-CREATED art from the living. You have never heard any phonograph that approaches the New Edison. It RE-CREATES not only the musical notes, but every elusive quality of tone and color which identify the original artist.

(By United Press.)

London, (By Mail).—Labor propaganda pills with Charlie Chaplin jam to tickle the palate, is the scheme of the Liverpool electrical trade union and the local trade council, which propose calling the movies to their aid in electioneering.

The two bodies are considering the construction of a trade union movie palace at a cost of \$125,000 in which economic text-books and the powers of debate will be reinforced by films depicting technical trades, and the development of the labor movement.

The promoters recognize that propaganda alone will not fill the building, but with the assistance of Charlie Chaplin films, and other popular "movie stars," it is considered a sound business proposition.

## The Coal Miners Demand

The demands of the bituminous coal miners amount to nothing less than an arbitrary levy of a tax of a billion dollars on the soft coal users of the country. The tax, if it should become effective, would have to be paid by every farmer, every manufacturer, every clerk, every day laborer and every person regardless of station in life, if they used soft coal. The controversy between the operators and the union, which threatens to participate a strike November 1, has not attracted much attention outside of the mining districts but nevertheless it is one that is fraught with momentous possibilities that might affect more than those who actually use the coal for it is stated that the railroads could not be operated more than ten days if the soft coal mines were to close.

The mine workers are asking for a six-hour day, five days in the week and a 60 per cent increase in compensation. This would mean a reduction in mine output at a time when the supply of bituminous coal is already far short as compared with the normal output. The 60 per cent increase, if granted, must necessarily be added to the price of coal at the mine; and since it will necessitate a larger investment on the part of the dealer, it will mean a still greater addition to the price before the coal reaches the consumer. The 60 per cent increase in wages will mean from \$1.50 to \$2.00 per ton added to the price of coal, or in the neighborhood of a billion dollars for the entire output for a year. On an average, this would mean \$10 per capita for the population of the country, or an average of \$50 per family.

Not only would this increase in the price of coal be paid by those who use soft coal in their stoves and furnaces, but every manufacturer who buys coal would add that increased cost to the price of his commodity, with the result that consumers of other commodities than coal would pay the increased price indirectly whenever they purchase manufactured goods.

Bearing upon the reasonableness of this demand for an increase and the threat of strike as a means of

Not that often harmful, always violent and temporary help that comes from harsh purgatives, but the comfortable, gratifying, corrective regulation of stubborn bowels so pronounced in Dr. King's New Life Pills.

Tonic in action, they promote free bile flow, stir up the liver, thoroughly but gently cleanse the system of waste matter and fermenting foods, and give you keen zest for hard work and healthful recreation. All druggists—25c.

## Sap and Salt

By BERT MOSES

Nothing is easier to find than a temptation.

Most of us fall down trying to stretch a single into a two-bagger.

To be the "whole cheese," you must first get the public to admit it.

Don't forget this: If there were no rogues, there would be no rogue lawyers.

The reason so many stupid laws are passed is that we elect stupid men to make laws.

Hez Heck says: "A bunch of men tell bad stories, while a bunch of women are just silly."

its enforcement, men entirely familiar with conditions in the mining districts say that average earnings of mine workers now are approximately \$8 per day. An instance is related of one Greek mine laborer who makes a practice of quitting work each month when his monthly earnings have amounted to \$500. He works about twenty-four days, a month before accumulating this income. Earnings of \$500 per month by a man with no capital investment must look huge to a farmer in Rush County who buys coal to heat his house in the winter time but who is unable during his twelve to fifteen hours work per day on the farm for six or seven days in the week, to earn anywhere near the same amount, even with the aid of his wife and children, and with a large investment.

## Let Prosperity Begin at Home

Community prosperity is, or is not, as we of the community make it.

Much money will be spent around here during the coming Christmas holidays. It is right that it should be so, for every normal person likes to partake of the joys of the yule time.

But where will that money go? Will the profits remain here, and continue to circulate in our midst, and enrich our local community? Or will they go to foreign houses, and be forever lost to us who have produced them by our energy and our thrift?

The answer is in our own hands. Our local merchants will be well equipped for supplying our demands. The goods will be on their counters, where we can see them, judge as to their quality, and know what we get. And the name of a local dealer stands as a guarantee for everything he sells.

But if we buy abroad we lose from our midst both the dealer's cost price and his profits. We never see them again.

And our community is the poorer to the extent of the profits on every article not purchased at home.

Which shall it be? A constructive Christmas, or a destructive one?

Prosperity should begin at home.

The highest bid made for the town of Nitro, West Virginia, site of a war-time munitions plant established by the War Department, was \$5,800,000. The town cost the country \$70,000,000. This is probably not the only instance in which the government paid 12 times the value of a war necessity, and it all came out of the taxpayers.

The young man who is content to remain stationary will never be a success in life. If he fails to press forward he will soon find himself slipping to the rear, and the devil takes care of the hindmost.

## 5-YEAR-OLD GIRL DIES

Harriet Brooks, five-year-old daughter of Mr. and Mrs. Will Brooks, died yesterday afternoon of appendicitis at the home of her parents east of the city. Besides her parents she is survived by two brothers, William and Howard. The funeral services will be conducted tomorrow afternoon at two o'clock at the residence and burial will take place in the East Hill cemetery.

Charles Carr left this afternoon for Pontiac, Michigan, on a business trip.

New and Bright Yarns That Will Tickle You and Will be Relished by Your Friends When You Repeat Them.

An irate southern planter, quick of temper and quicker to forgive, nevertheless was much feared by negro servants. They jumped at his command. In honor of a Texan visitor a bear hunt was organized in the cane breaks and in twenty minutes the dogs had surrounded the bear. The party rode up on horseback, Eph, an old negro, arrived on a mule. A terrific bow-wow and pow-wow was going on, but no bear in sight. The planter yelled:

"Eph, get off that animal and chase out that bear."

To the Texan's astonishment Eph dismounted, seized a pine knot and rushed into the cane. In a few minutes the bear broke cover and was promptly killed. The Texan sidled over to Eph and said:

"Eph, how did you ever get the nerve to go after that bear single handed?"

"It's dis way," said Eph. "For a long time, Suh, Ah been passionately acquainted with dat boss of mine, but Ah never befoh met dat bear, so I jass nachally selected dat bear."

## Had to Muffle the Telephone

Mrs. Swanson's Nerves Were Upset  
From Years of Trouble—Gains  
20 Pounds.

"For the benefit of the thousands who are suffering from stomach trouble and a run down condition I want to tell of the wonderful results I have gotten from the use of Tanlac," said Mrs. Lena Swanson of 1720 North Madison street, Peoria, Illinois, in relating her remarkable experience with the medicine, a few days ago.

"My friends are simply amazed," she continued. "They all say I am now the picture of health. Why, just today, one of my friends told me I was looking ten years younger and I certainly do feel that way, too. I have already gained twenty pounds in weight and have just finished my fifth bottle of Tanlac."

"It was eight years ago, or more, that my stomach got out of order and my health began to fail. I finally got to feeling so badly that I lost interest in everything, gave up my church work, and found little pleasure in life. My food acted like poison to my system. I would bloat up with gas until I did not look natural and just suffer agony. My heart would flutter from the effects of this gas, and weaken me until I would almost faint. I would get so dizzy at times that the house seemed to be whirling round. No one knows unless they have suffered the same way, how miserable I did feel. I at last got to where I had to almost stop eating and became so run down and weak it was all I could do to get about the house. My nerves were so shattered that the least noise would upset me. I finally had to muffle the telephone as I would almost jump out of my chair when it rang. I slept but little at night and seldom woke up in the mornings without a dull, nagging headache."

"My friends would call and sympathize with me, but now they rejoice with me and go away praising Tanlac. One day my brother, who had used Tanlac with fine results, brought me a bottle and talked me into trying it. Well, when I finished that bottle my appetite had returned and I could eat better and sleep better than in years. I didn't feel quite so nervous, either, and then I knew I had at last found the medicine I needed. I had been suffering so long and was in such a badly run-down condition that it took several bottles of Tanlac to straighten me out, but anyone can look at me now and see that I am enjoying good health. I can now eat meats, pickle, cabbage, in fact, just anything and never have the least trouble with my stomach. My nerves are as calm and I sleep as soundly as when I was a child. I am just so grateful and happy for the return of my health that I want to tell everybody about Tanlac. I never grow tired praising it to my friends."

Tanlac is sold in Rushville by F. B. Johnson & Co.; in Milroy by Dallas Copper; in Manilla by Geo. J. Inlow; and Arlington by Mrs. L. T. Davis.—(Adv.)

## EARLY ACTIVITY IN "STOVE LEAGUE"

Picking New Managers for 1920  
Started Before Curtain Fell on  
Year's Championship Race

MORAN TO REPEAT WITH REDS.

Outside All Uncertainties Every-  
thing Seems to be Lovely in Ma-  
jor League Circuits.

(By United Press.)

New York, Oct. 15.—It's kind of early for winter sports but there are already signs of early activity in the "stove league" which keeps the national pastime alive during the snow period.

The favorite occupation of picking new managers for the 1920 season started before the curtain had fallen on this year's championship race. As is usual there are whole-sale rumors of changes in the league and the personnel of the various clubs.

President Heydler, of the National league put his foot on the throat of the yarn that the St. Louis Cards franchise was to be turned over to Minneapolis interests and the Boston Brave club was to be run farther up north to Montreal. Rumors of a change in the ownership of the Chicago Cubs have also fallen by the way. Frank Chance recently announced in Los Angeles that he and Barney Oldfield had been in the notion of buying the Cub team but had changed their minds.

A new hand at the helm of the Pittsburgh Pirates next season seems almost assured. Hugo Bezdek will go back to Penn. State to take charge of athletics according to reports and he will be succeeded as boss of the Pirates by George Gibson, the old popular backstop of the club. Bezdek's work didn't please the Smoky City fans. His connection with various collegiate sports gave him the theory that physique was the only requisite for a ball player and that he could take a husky, well built chap and make a ball player out of him like they do around the college campus with football and track material.

But it was proved long ago that baseball players aren't easily made. McGraw tried it with Jim Thorpe and didn't meet with much success. Gibson has been successful as a manager of the Toronto International and he has quite a following who believe he can make the go as a big league pilot. His experience with Fred Clarke and McGraw should have given him some good ideas of winning play and the old catcher has personality with it. Lee Fohl, deposed Indian chief of Cleveland is also being mentioned.

Another change agreed upon as sure by the dopsters would transfer the reins of the New York Yankees from the hands of Miller Huggins to Wilbert Robinson, the Dodger boss. Robby is said to be content with his present job as far as relations with the club owners and the team go but he has his eyes on larger pay slips and the Ebbets syndicate can't pay him as much as the wealthy colonels could afford for a man who would make a champion team out of the Yankees.

Huggins hasn't been a howling success as pilot of the Yankees. The showing the American leaguers made this year was a distinct disappointment to the Gotham fans who early in the season had visions of a world's series played straight through on the Polo grounds. Huggins didn't get himself in wrong with the club owners by his failure to land the pennant, but the little leader is said to be longing for his old love—the National League.

Some of the fans are predicting that the Dodgers and the Yankees

might switch managers before the teams hike off to the training grounds next spring.

There seems to be little foundation to the rumor that Jawn J. McGraw is going to retire from the management of the Giants and Pat Moran will certainly try to repeat with the Reds unless Garry Hermann and company pull a "Baker" and give the Irishman his walking papers. Stallings is slated for a removal from the bridge of the Brave bark and Ed Barrow seems to be in "dutch" also with the Hub fans.

Tris Speaker covered himself with glory during his late season drive with the Indians and he will no doubt get a long term parchment from owner Jim Dunn. If Connie Mack develops anything out of several score of infants that he has on the club roll he may return to the good graces of the Quaker City fans.

Outside of all these little uncertainties everything seems to be lovely in the playing families of the major league circuits.

## Amusements

"The Spite Bride" Tonight

Would you like to be the bride of a man who had married you just to spite another woman? Billy Swayne, a scion of one of New York's oldest families, didn't love Tessa Doyle the little dancing girl he married in fact, he hardly knew her.

When Millicent Lee had jilted him to marry another man, Billy thought the world had ended. He did not know what to do and so, as is usual, in such instances, he took the first bit of advice given him. Rodney Dolson told him him to get married immediately—before Millicent did, so that it would look as if he had thrown Millicent over for this other girl. It didn't make much difference who the girl was. He could marry her, give her a thousand and send her to Reno.

So when they saw Tessa Doyle at the theatre that night, they immediately decided that she was just the girl. Now, Tessa wasn't the usual type of dancing girl. She was young, fresh and as yet unsmirched by the grease paint and footlights. She was innocent and good. She didn't want to marry Billy on the conditions that he named. She had a different idea of what marriage ought to be—something sacred. But her will was not strong enough to battle against those of Billy, Rodney and her dancing partner, Tricie. So she was married.

This is the thrilling story of "The Spite Bride," in which Selznick Pictures presents beautiful Olive Thomas and which comes tonight to the Princess theatre. A brilliant supporting cast is headed by Robert Ellis and Jack Mulhall.

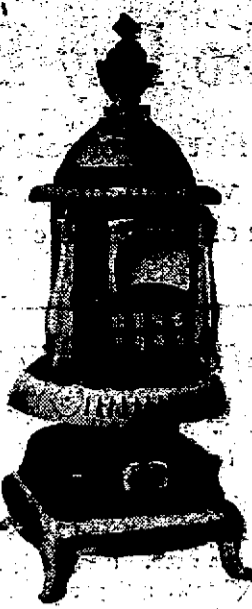

Alice Joyce at Mystic

Big, dramatic scenes abound in "The Cambrie Mask," the Alice Joyce Picture which will be seen in the Mystic theatre on today. Vitagraph again screens one of Robert W. Chambers' novels, and this swift moving romance gives Miss Joyce one of her most heroic roles. The picture was filmed under the direction of Tom Terriss, and in the supporting cast are Herbert Pattee, Maurice Costello, Roy Applegate, Bernard Siegel, Jules Cowles, Martin Faust and Florence Deshon.

Miss Joyce has a hard riding, fighting role that recalls her fine work in early Vitagraph Westerns. She joins a band of White Riders, led by her father and bent on killing the man she loves. By a thrilling night ride she overtakes the band and manages to free and arm the man, who thus escapes. He has believed all along that she has gone over to his enemies, and not until he overtakes and unmasks the fleeing girl does he realize what risk she had taken—because all along she had loved him.

The twelfth episode of "Elmo the Mighty," entitled "The Last of the Rocks," will be shown tomorrow. Neal Hart in a two-reel western picture and an O. K. comedy "Billie Geis in Trouble," in which Ben Wilson and Neva Gerber are starred, will also be on the program.

John Kirk who has been ill with pleurisy, is improving.

## Hot Blast Furnace Stove

Here it is at last—a warm air heating plant which everyone can afford—ordinary small warm air furnace, yet costs little more than any ordinary heating plant which works as thoroughly and satisfactorily as the Hot Blast Stove to buy—no more to install and much less to operate.

It's not necessary—not even advisable to use expensive fuel in the Hot Blast Furnace Stove. It will burn any kind of coal satisfactorily—hard coal, soft coal, large chunks of wood and even slack.

If you want to save fuel and be  
comfortable install the

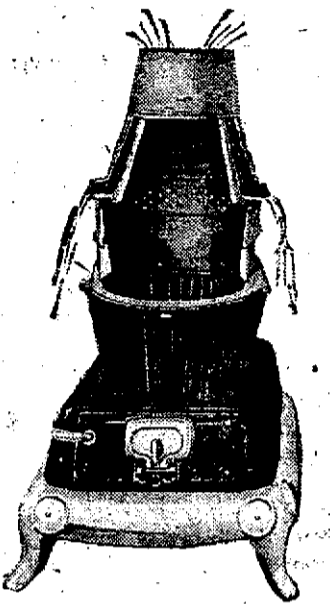

## Furnace Hot Blast

This represents an X-Ray view of the stove looking at it in front. Large, roomy base, ribbed or fluted fire pot radiates heat very rapidly and causes circulation. This form of construction gives double the radiating surface of the ordinary fire pot and with proper use we guarantee it will not burn out.

It generates a clean, dustless heat; it purifies the air of the room; it heats every nook and corner with absolute uniformity.

We have produced 788 degrees Fahrenheit at the top of the air chamber WITHOUT IN ANY WAY INJURING THE STOVE. Stove manufacturers have depended upon scattering heat energy by radiation as the principal means of heating. We do not lose sight of radiation and have a deeply ribbed corrugated fire pot which allows for air space around the fuel and rapid radiation on the outside.

## MRS. LAURA NEWMAN DIES

Funeral Services Will be Held at  
Salvation Army Church

Mrs. Laura Newman aged 71 years, died last night at her home in South Pearl street, death being caused from a complication of diseases of which she has been a sufferer for a number of years. Besides her husband, Alex Newman, she is survived by four sons, Charley, Theodore, Guy and John, all of whom live here or near here. A sister, Mrs. Weaver, of Chicago, also survives. The funeral will be held at the Salvation Army church at 2:30 tomorrow afternoon, and burial will be made in East Hill cemetery. The Rev. Joe Wainseott of Shelbyville will be in charge of the services, on account of the absence of Capt. J. A. Tench.

## KEEP LOOKING YOUNG

It's Easy—If You Know Dr.  
Edwards' Olive Tablets

The secret of keeping young is to feel young—to do this you must watch your liver and bowels—there's no need of having a sallow complexion—dark rings under your eyes—pimples—a bilious look in your face—dull eyes with no sparkle. Your doctor will tell you ninety per cent of all sickness comes from inactive bowels and liver.

Dr. Edwards, a well-known physician in Ohio, perfected a vegetable compound mixed with olive oil to act on the liver and bowels, which he gave to his patients for years.

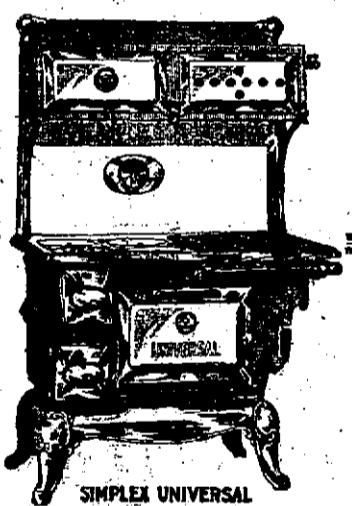

Dr. Edwards' Olive Tablets, the substitutes for calomel, are gentle in their action yet always effective. They bring about that natural buoyancy which all should enjoy by toning up the liver and clearing the system of impurities.

Dr. Edwards' Olive Tablets are known by their olive color. 10c and 25c.

The first meeting of the year for the Shakespeare club was held last evening at the home of the Misses Nora and Mary Sleeth in West First street. The subject to be studied this year will be "The Woman Citizen". At the meeting last evening Mrs. Edith Brown gave a book reading and Miss Nora Sleeth read a paper on the "Meaning of Citizenship". After the program light refreshments were enjoyed.

Among the pretty social events being given for Miss Esther Black who will be married this month, was the surprise handkerchief shower in her honor at the home of Mrs. Jack Knecht, this afternoon. Mrs. Boy E. Harrold being the assisting hostess. The afternoon was spent over needlework and at the close the guests were invited into the dining room where a delicious one-course luncheon was served. A large karpis dressed as a bride formed the attractive centerpiece for the table and dainty place cards were used in

the decoration of the table. The guests were Miss Esther Black, Mrs. Kennard Allen, Miss Hannah Morris, Mrs. Hubert Innis, Miss Helen Black, Mrs. Walter Hubbard, Miss Katherine Petry, Miss Mary Ellen Carroll, Miss Margaret Kelley, Miss Mary Moorman, Mrs. B. A. Black and Mrs. Will Carroll of Plymouth, Ind.

A beautiful one o'clock luncheon was given yesterday afternoon at the home of Mrs. Hubert Innis, near Milroy, honoring Miss Esther Black, a bride-elect. The dining table was centered with a large French basket of pink dahlias and cupid place cards; with a small karpis tied with a pink ribbon marked the place for the following guests: Miss Esther Black, Miss Helen Black, Mrs. Jack Knecht, Mrs. Kennard Allen, Mrs. Earl Moore, Miss Hannah Morris, Mrs. Veri Bobout, Mrs. Walter Hubbard, Mrs. Boy E. Harrold and Mrs. Herbert Mack of Greensburg.

### SERVICE FLAG DEMOBILIZED

New Salem M. P. Church Gives Star to Each Soldier Represented

The New Salem Methodist Protestant church's service flag was "demobilized" at the rally and home-coming service Sunday. Following a stirring address in the afternoon by Judge Will M. Sparks of this city, the pastor called the roll of the soldiers in the Sunday school and as the boys came to the front, each was given a star from the flag. A rally day program was given by the Sunday school children in the morning and a basket dinner was served in the church at noon, after which old acquaintances with the returned soldiers were renewed and new ones formed.

## NO LUXURY IN ROYALTY'S TOUR

Two Maids are all Queen Elizabeth Has With Her, Both Being Belgian Girls.

ECONOMY IS WATCHWORD.

Entire Luggage of Royal Party Together With Servants Consists of 130 Pieces

New York, October 15—There is no flourish of extravagant luxury in Belgian royalty's tour of America. "Economy" is the watchword.

Two maids are all Queen Elizabeth has with her. The lesson of thrift preached to American housewives by Herbert Hoover is being strictly followed by the queen. Both maids are Belgian girls and came across the ocean with the royal party.

One lady-in-waiting, the Countess C. de Caraman-Chimay, is in attendance on the queen.

Simple white and gray dresses feature Queen Elizabeth's attire throughout her journey over "The Wonderland".

The king has one personal servant, his valet. Prince Leopold also carries a valet. Add to this a maid for the Countess de Caraman-Chimay, and the servant equipage of the royal party amounts to five people.

Six men, in the capacity of footmen, accompany the monarchs on their tour. They are strong able-bodied Belgians and in addition to being in close attendance on the Belgian rulers, they will also keep an eye on the look-out for any loose Belgian anarchists.

The king wears the uniform of a Belgian private since leaving Brussels, and unless King Albert decides otherwise, he will wear it practically all of the time he is in the United States.

The entire luggage of the royal party, consisting of the king, queen, prince, the officials attached to it, together with that of the servants, consists only of 130 pieces.

## 2 PRIZE FIGHTS ON TURKEY DAY

Big Championship Bouts Will be Staged on Thanksgiving Between Leonard and Tendler

HERMAN OUT FOR ANYONE

One Will Take Place at New Haven and The Other in New Orleans—All Well Known Fighters

New York, Oct. 14—Two big championship fights have practically been arranged for Thanksgiving Day.

Benny Leonard, world's light weight champion will meet Lew Tendler, the Philadelphia light weight in a fifteen round, no-decision bout at New Haven. Pete Herman, batam champion will meet either Pal Moore or Joe Lynch at New Orleans.

The Leonard-Tendler mill has the promise of being one of the season's best battles. The Quaker light weight, despite the whipping he received from Willie Jackson has everything that brands him a real candidate for the crown worn by Billy Bibson's champion. Tendler has been yelping for a fight for months and so thoroughly convinced the fans of his sincerity that they made a demand for a chance for the Sleepy City boy that Gibson couldn't turn down.

Pete Herman wants to get back into the good graces of the fans who have been punning him of late. He has agreed to fight anyone on Turkey Day that his manager will sign up. He'll take either Pal Moore, of Jimmy Wilde fame or Joe Lynch, the New York flash. Rather than have the two aspiring little fellows run the risk of broken limbs in the rush after the match he suggests that Moore and Lynch get together about Oct. 20 in some ring, and decide who gets to put on the gloves for the crack at the champion.

## Our Milk Offer To Homes with Children in Them

We prefer to sell Van Camp's Milk to homes with children in them. To such homes it is all-important, and we can never supply it to all.

We offer them this:

A milk from high-bred cows, fed in rich dairying districts, kept in sanitary dairies and regularly inspected.

A pasteurized milk, utterly germ-free. It has none of the dangers of raw milk.

An extra-rich milk, with twice the butter fat of bottled milk. Reduce it to the richness that you like.

No Extra Cost

This ideal milk costs you no more than other evaporated milk.

It costs you less than milkman's milk—much less, for it saves all waste. You can keep small cans and large cans ever on the shelf. Open what you need.

The Van Camp experts have spent 20 years to bring you a milk like this. They have bought thousands of high-bred cows. They have established condenseries in seven great dairying districts.

There the fresh milk is put into a vacuum. Under a low heat we remove half the water. Then we sterilize the milk.

The milk is otherwise unaltered.

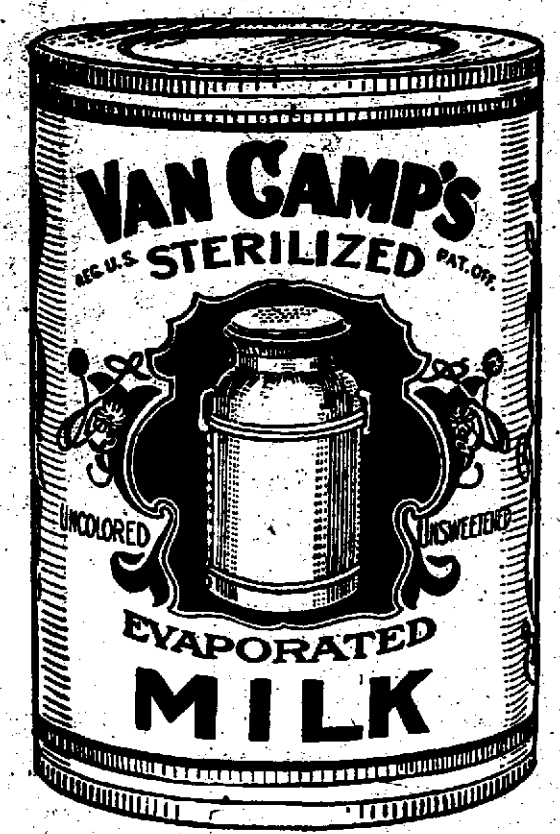

Use it as it comes for your coffee. Dilute it somewhat for cereals. Add an equal part of water for drinking. Dilute it still further for cooking.

The New-Day Milk

This is the new-day milk. It is bound to displace germ-laden milk in any careful home. Or milk from common cows.

It has come to save waste. It will encourage milk using because it is clean and safe, but it saves on the left-over milk.

Compare it with bottled milk. Compare it with other evaporated. You owe that to yourself and yours.

## NEEDS MONEY TO PAY COST OF CONFERENCE

Government Finds Itself in Fix With No Funds to Finance International Meeting

TREATY RATIFIED BY THREE

(By United Press.)

Washington, Oct. 14—With the peace treaty just on the verge of going into effect through ratification by three major powers, the government today found itself in need of funds to carry out the program.

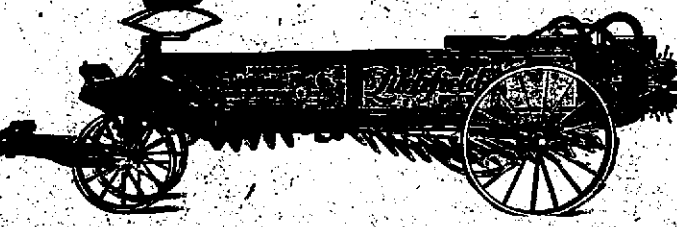

The international labor conference is to meet here October 29 and delegates will begin arriving within three days.

The sum of \$200,000 will be needed to finance this. Whether congress will appropriate the money in time to be used was problematical today.

Unless the peace treaty has been ratified by the senate before October 20, the United States will be unable to have any representation in this labor conference.

Haven were almost one in declaring that the New York boy made the southerner look foolish. Herman retained his championship by running away they claimed. If Lynch and the little Pete do get together in a bout of reasonable length, the following of the Gotham scrapper will lay odds that their idol will bring home the crown.

## PEOPLE ARE NOT ALIKE

Neither Are All Spreaders Alike.

Right now, at a time when the uncertainties following war conditions are being ELIMINATED, is the time to buy your manure spreader. NOW is the time, when it is almost a crime to waste and to not take advantage of every possible soil improvement.

The man who owns land and is giving real thought to this matter, knows that to put off buying a spreader is folly at this time. Delay means loss. If you are going to buy a manure spreader, remember there is more difference in these machines than there is in human beings. I do not claim that the Rushville Special Spreader is the only good spreader made, but it is so much better than the best of any other make that you can't afford to buy anything else.

That patented "BULL DOG" double acting beater wheel, can't be clogged—you can't stick it. Just think of this the next time you see a neighbor's pitch fork going with him to the field. Don't forget the "NO-CHOKE" box that can't be clogged, at least it has never yet been stuck with any kind of material.

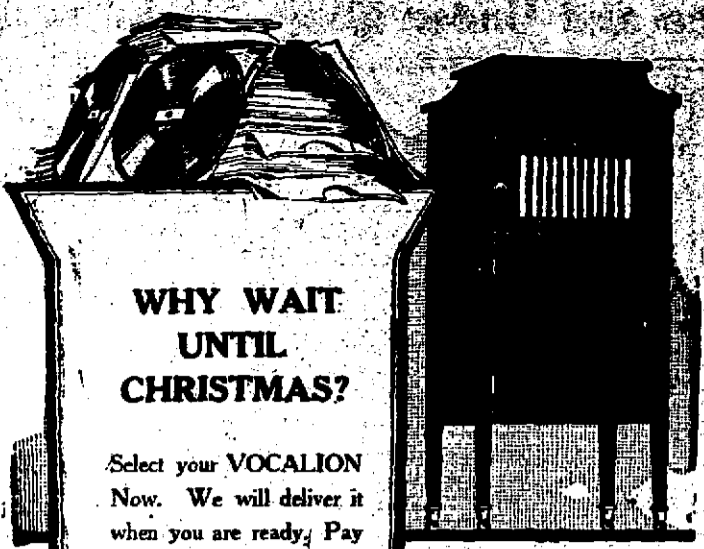

There is a reason for using the expensive Litchfield hitch, and the Company knows what it is. It means a perfect equalization, and not a horse killer. The manufacturers would not put the extra expense into this, which is required, unless it had merit to justify.

Stop in and see the "Rushville Special" Spreader. You will like it.

**FROST AND RAINS BRING THE NUTS**

"Kids" Are All Stained up From Gathering Walnuts Which Are Beautiful and of Good Quality

**DEALERS LOOK FOR SHORTAGE**

Imported Variety for Christmas Trade Will be High—Hickory Nuts Are Plentiful Now

Hands stained a rich dark brown are all the vogue these days amongst the boys of school age, and the reason therefor is simple. It is the season of the year when walnuts are ready for the harvest.

Nearly every lad of fourteen years or thereabouts one sees these days will be found with hands of dusky hue and if questioned as to the cause, will grin and remark "I got a peck, or a half bushel or some other amount of walnuts, yesterday."

There are few men of mature years who do not recall their boyhood days and the time when they went into the woods in the early fall for the meaty nuts so relished later in the season when weather conditions are severe enough to compel one to stay in doors. Few too but recall those days as the most pleasant in their lives and perchance long for a return.

Boys we have talked to this year who have made an excursion into the nearby woods, tell us that the nuts are rather plentiful, considering that the great bulk of timber has been cleared away. While a goodly supply has already been gathered, none to date have appeared on the local market, which this week begin showing for this first time this season. A few imported nuts. In a few weeks stocks will be displayed prominently for the season will have advanced when there will be a great demand for them.

For the first time in many years, the hickory nut crop is unusually better than before, and the quality of them is said to be of an excellent taste. The walnuts, this year, are also of the good tasting kind, as the summer and fall weather was considered ideal for their ripening.

The heavy rain last week caused the nuts to fall from the trees and according to some who were gathering them, the ground was covered and little trouble was encountered in getting a supply.

Imported and domestic nuts will be sold at constantly higher prices this season as compared with last, dealers say, for they like all other food stuffs, seem to have caught the idea of the prevailing rising market.

One dealer today, who is showing some fancy washed Brazilian nuts, quoted them at 50 cents a pound, the same as last year, but said he only did this, due to the fact that he bought some time ago and that the same nut, if purchased now, from the jobbers, would have to retail at 65 cents a pound.

There are a few English walnuts in this country held in storage from last year and they may be retailed at a price somewhat similar to last year, but the new supply will be higher. California nut growers are not even giving out quotations, on their product at this time, merchants assert.

Indiana Branch of American Legion Opens Meeting Today.

Indianapolis, Ind., Oct. 15—The Indiana branch of the American Legion, opening its meeting here today, was expected to take up the bonus question, the matter of forming a woman's auxiliary to the legion, the form of membership of colored men, the policy of national defense, war risk insurance and all other questions which will come before the national convention in Minneapolis next month.

The meeting opening in the home of representatives at the legion house. Attending was one delegate from each of the thirty local units and one delegate for each one hundred paid-up members of any unit.

The Thorn Headed Worm is a "blood sucker" and nothing will expel them after they are formed. They have a mass of thorns or hooks about the head and not only attach themselves to the intestines but bury the head into and clear through the intestines. The THORN HEADED WORM can be positively prevented by feeding Acme Worm Bouncer from birth to maturity. The Wisconsin Agricultural College, Veterinary Department, in Poster Bulletin No. 3, July 1914, says: "Serum will not give good results if worms, indigestion and other diseases are present." This tells you that when your hogs are vaccinated that you need Acme Worm Bouncer just the same, in fact, more, for you have spent on your hogs 50 to 75 cents per head more than the man who has not vaccinated.

**TAKES FLAG TO COLONEL'S GRAVE**

Boy Scouts Carry Memorial From Buffalo to Oyster Bay Where it Will Fly Over Grave.

**STAR SEWED ON AT EACH STOP**

Plan is to Have Flag Reach Oyster Bay in Time For Roosevelt's Birthday, October 27.

West Point, N. Y., Oct. 15—The Roosevelt memorial flag, being carried by boy scouts from Buffalo to Oyster Bay, where it will fly over the grave of Theodore Roosevelt, passed through here today.

The flag, without stars, left Buffalo September 3rd. Throughout its journey it has been carried on foot by boy runners, each training a mile of the 400 mile trip.

At each stop a star was sewed on. When it arrives in New York City it will have 45 stars. Another will be attached at Brooklyn, another at Mineola and the last at Oyster Bay. The sewing has been done by patriotic and civic societies such as the Daughters of the American Revolution and similar bodies of women.

Up to date stops have been made at Batavia, Elmira, Rochester, Canandaigua, Geneva, Watkins, Oswego, Binghamton, Cortland, Ithaca, Auburn Syracuse, Rome, Utica, Little Falls, Fonda, Johnstown, Amsterdam, Schenectady, Plattsburg, Elizabethtown, Port Henry, Ticonderoga, Whitehall, Fort Ann, Hudson, Catskill, Kingston, Poughkeepsie, Newburgh and West Point.

The plan is to have the flag reach Oyster Bay in time for the Colonel's birthday, October 27th. The next stop will be Peekskill, October 16th, then Stony Point, October 17; Tarrytown, October 18; Yonkers, October 20; White Plains, October 21; the Bronx, October 22; New York City, October 23; Brooklyn, October 24; Mineola, October 25th and Oyster Bay, October 26th.

The relay was planned by the Roosevelt Memorial Association. Appropriate exercises have been held in cities and towns along the route as the flag traveled toward its destination.
